MA(Ad, PR & CC) 2019-2021

Programme Code: SDM0110

General Guidelines

and

Terminology of Various Academic Programmmes

under

Department of Mass Communication

General Guidelines:

These guidelines are framed to enable the various departments in SCADMS of Sharda University to run academic programmes in a structured manner. The main aim of these guidelines is to bring about a certain degree of uniformity in the programs running in various departments of the school. This would ultimately help in improving the quality of academic structure and delivery within the school. The guidelines would help all those who teach courses under various programmes to meet the basic requirements to teach the course. The guidelines also list the various templates required for this purpose.

Definition of Terms:

The following terminology would be used for the purpose of academic delivery within SCADMS. All departments have to follow these terminologies:

Department: Department in SCADMS refers to the unit that confers the professional qualification e.g., Department of Mass Communication. It may have various departments under its umbrella. As of 2018, SCADMS has 02 operational departments. These two departments in SCADMS are units that refer to specific areas of knowledge that do not end up as a professional qualification.

Programme: An educational programme is an integrated, organized experience that culminates in the awarding of a degree. The programme will have programme educational objectives, student outcomes, a curriculum, faculty and facilities. For instance, Department of Mass Communication is offering 05 programmes, i.e., BA (Journalism & Mass Communication), MA (J&MC), MA (Advertising & Public Relations), MA (Digital Media and Multimedia Communication) and Ph.D (J&MC).

Programme Educational Objectives (PEOs): Every programme stipulates educational objectives along with the curriculum. This is extremely essential for any running programme because a systematic process needs to be followed for stating PEOs which should also align with the mission of the school. It is based on the need analysis of the programme. It is also periodically reviewed to keep with changing trends. Objectives are focused on performances that all students are expected to demonstrate at the end of instruction. Objectives define the key elements that must be taught every time the course is delivered.

Programme Outcomes (POs): Programme outcomes of SCADMS provide general information about the focus of student learning and are broadly stated. Student Learning Outcomes are statements that specify what students will know, be able to do or be able to demonstrate when they have completed or participated in a programme. PO's specify an action by the student that is observable, measurable and able to be demonstrated. These are also synonymous with student learning outcomes.

Courses: Courses in SCADMS is a subject run for the purpose of conducting of any programme.

Course Code: SCADMS course code provided to subjects as entered in PeopleSoft for the purpose of identification of the subject as well as for the purpose of examinations. It is a unique identifying code. It generally represented as a "XYZ123" wherein XYZ is

related to the programme and 123 is the serial no based on the year. In case there is a change of 20% or more in the syllabus, a new code has to be assigned to the course through proper approvals.

Course Title: It is the expanded full form of a subject against a given course code. No short forms are permitted in the course title. E.g., in the Department of Mass Communication, the course tile, Convergent Media in 2nd Semester of MA (J&MC) programme.

Contact Hour: It is equivalent to 55min-60mins for one lecture/studio hour.

Credit: It is the weightage offered against a course. The student will obtain the credit against the course when he successfully obtains the minimum passing marks. Further description may be obtained from Examinations cell, SHARDA UNIVERSITY.

Course Objectives: Course objectives are clear and concise statements that describe what SCADMS intend our students to learn by the end of the course. It describes an intended state on what we hope our students will learn.

Course Outcomes: It expresses a present and observed state (what our students will actually learn) through the course. These are synonymous with programme specific outcomes (PSOs), course outcomes and any other similar terms as desired for respective accreditation processes.

The purpose of Course Objectives and Learning Outcomes is to:

- Align objectives with course content and evaluation methods
- Clearly communicate our expectations of students
- Establish a logical sequence of learning milestones

• Provide an opportunity for students to make connections across courses and institutional goals

Unit: The syllabus is to be divided into five units 1,2,3,4 and 5 with each unit having 3 sub units-a, b and c. This is the method for recording attendance as well in v-Attendance app.

Structure:

There are three elements essential for running SCADMS programme:

- 1. Programme Structure (Required for the programme)
- 2. Course syllabus required for each course in one of the following formats:

Template A1– for Theory subjects

Template A2 – for Practical subjects

Template A3 – for Jury subjects/studios/projects/dissertations

3. Instructional Plan-

Template B1 -- for Theory subjects

Template B2 -- for Practical subjects

Template B3 -- for Jury subjects/studios/projects/dissertations

Template D provides additional in the case of Jury subjects/studios/projects/dissertations with a list of Project with description, studio work, and dissertation topic with scope of work and precise deliverables.

Accordingly, the following are formulated for each course:

Sr.No	Course	Syllabus	Instructional	Additional
		Template	Plan template	
1	Theory	B1	C1	PPTs, GDs, Seminars & Lecture series
2	Practical	B2	C2	Media Labs, Computer Labs & Assignments
3	Jury subjects/Studios/ Projects/Dissertations	B3	C3	D: List of Project with description, studio work, dissertation topic with scope of work and precise deliverables (to be uploaded on LMS)
