(2020-2023)

1.1 Vision, Mission and Core Values of the University

Vision of the University

To serve the society by being a global University of higher learning in pursuit of academic excellence, innovation and nurturing entrepreneurship.

Mission of the University

Transformative educational experience
Enrichment by educational initiatives that encourage global outlook
Develop research, support disruptive innovations and accelerate entrepreneurship
Seeking beyond boundaries

Core Values

Integrity
Leadership
Diversity
Community

1.2 Vision, Mission and Core Values of the School

Vision of the School

To serve the society by being a global center in pursuit of academic and professional excellence in the field of dentistry.

Mission of the School

Creating a stimulating and flexible learning environment amongst the faculty and students

Strongly promoting research, innovation, clinical excellence

Promote and inculcate ethical values and continued betterment in the dental profession and in all facets of life.

Core Values

Integrity

Leadership

Diversity

Community

1.3 Programme Educational Objectives (PEO)

Program educational objectives are broad statements that describe the career and professional accomplishments that the program is preparing graduates to achieve.

PEO1: Training programme in Prosthetic dentistry including Crown & Bridge & Implantology is structured to achieve knowledge and skill in theoretical and clinical laboratory, attitude, communicative skills and ability to research with understanding of social, cultural, educational and environmental background of the society.

PEO2: To have acquired adequate knowledge and understanding of applied basic and systemic medical science, knowledge in general and particularly of head and neck.

PEO3: The postgraduates will be able to provide Prosthodontic therapy for patients with competence and working knowledge with understanding of applied medical, behavioral and clinical science, that are beyond the treatment skills of the general BDS graduate and MDS graduate of other specialties, to demonstrate evaluative and judgment skills in making appropriate decisions regarding prevention, treatment, after care and referral to deliver comprehensive care to patients.

1.3.3 Program Outcomes (PO's)

PO1: Knowledge: Ability to diagnose and planned treatment for patients requiring a Prosthodontic therapy like tooth and tooth surface restorations, Complete denture Prosthodontics, removable partial denture Prosthodontics, fixed prosthodontics and maxillofacial and Craniofacial Prosthodontics, implants and implant supported Prosthodontics, T.M.J. and occlusion, craniofacial esthetic, and biomaterials, craniofacial disorders, problems of psychogenic origin.

PO2: Skills: Understand the prevalence and prevention of diseases of craniomandibular system related to Prosthetic dentistry and the candidate should be able to restore lost functions of stomatognathic system namely mastication, speech, appearance and psychological comforts. By understanding biological, biomedical, bioengineering principles and systemic condition of the patient to provide a quality health care of the craniofacial region.

PO3: Attitude: Adopt ethical principles in all Prosthodontic practice. Professional honesty and integrity are to be fostered. Treatment to be delivered irrespective of social status, caste, creed or religion of the patient.

PO4: Communications: Should be able to communicate in simple understandable language *with* the patient and explain the principles of Prosthodontics to the patient. He should be able to guide and counsel the patient with regard to various treatment modalities available. Develop the ability to communicate with professional colleagues through various media like Internet, e-mail, videoconference, and etc. to render the best possible treatment.

PO5: lab equipment's& Materials: Laboratory technique management based on skills and knowledge of Dental Materials and dental equipment and instrument management. Perform clinical and Laboratory procedure with understanding of biomaterials, tissue conditions related to prosthesis and have competent dexterity and skill for performing clinical and laboratory procedures in fixed, removable, implant, maxillofacial, TMJ and esthetics Prosthodontics.

PSO1: Train the student to know the proper diagnosis and plan the treatment of various prosthodontics conditions

PSO2: Should able to offer the Prosthodontic line of treatment complete denture cases, partial denture cases fixed partial denture cases Maxillofacial cases and all types of implant treatment

PSO3: should able to select the specific dental materials based on their properties, manipulation and of Prosthodontic conditions

PSO4: to encourage and promote innovation, research and publication and also to promote collaboration with various other universities and disciplines

|---|--------------------|--|
| | | <p>patient.</p> <p>301.7- The candidate would be able to understand the prevalence and prevention of disease of craniomandibular system related to fixed prosthetic dentistry. The candidate would be willing to adopt new methods and techniques in fixed prosthodontics from time to time based on the scientific research, which is in patient's best interest.</p> |
| 7 | Course Description | <p>The M. D. S. in Prosthodontics, Crown & Bridge is a three year Postgraduate program. It is the dental speciality pertaining to the diagnosis, treatment planning, rehabilitation and maintenance of the oral function, comfort, appearance & health of patients with clinical conditions associated with missing or deficient teeth & or maxillofacial tissues by using biocompatible tissues. The purpose of the course is to provide advanced education in the subject to highly qualified graduate dentists who are interested in a career of specialized practice, teaching and research.</p> |

Outline Syllabus

| | | |
|---------------------|--|---|
| MDS-301.A | Unit A APPLIED BASIC SCIENCES | |
| MDS-301.A1 | Unit A Topic 1 | Applied Anatomy of Head & Neck |
| MDS-301.A2 | Unit A Topic 2 | Applied Physiology & Nutrition |
| MDS.301. A 3 | Unit A Topic 3 | Endocrines |
| MDS-301.A4 | Unit A Topic 4 | Applied Biochemistry |
| MDS-301.A5 | Unit A Topic 5 | Applied Pharmacology & Therapeutics |
| MDS-301.A6 | Unit A Topic 6 | Applied Pathology & Microbiology |
| MDS-301.A7 | Unit A Topic 7 | Biostatistics |
| MDS-301.A8 | Unit A Topic 8 | Applied Radiology |
| MDS-301.A9 | Unit A Topic 9 | Applied Medicine & Surgery |
| MDS-301.A10 | Unit A Topic 10 | Applied Dental Materials |
| MDS-301.B | Unit B REMOVABLE PROSTHODONTICS | |
| MDS-301.B1 | Unit B Topic 1 | Prosthetic Treatment for Completely Edentulous Patient- Complete Denture, Immediate Complete Denture, Single CD, Tooth-Supported CD, Implant- Supported Prosthesis. |
| MDS-301.B2 | Unit B Topic 2 | Prosthetic Treatment for Partially Edentulous Patient- Clasp Retained Partial Denture, Intracoronal & Extracoronal Precision Attachment Retained Partial Denture. |
| MDS-301.C | Unit C MAXILLOFACIAL REHABILITATION | |
| MDS-301. C1 | Unit C Topic 1 | Osseointegrated Supported Facial & Maxillofacial Prosthesis |
| MDS-301.C2 | Unit C Topic 2 | Material & Lab Procedures for maxillofacial prosthesis |
| MDS-301 D | Unit D FIXED PROSTHODONTICS | |
| MDS-301 D1 | Unit D | Diagnosis & Treatment Planning |

| | | |
|-------------------|--|---|
| | Topic 1 | |
| MDS-301 D2 | Unit D Topic 2 | Management of Carious Teeth |
| MDS-301 D3 | Unit D Topic 3 | Periodontal Considerations |
| MDS-301 D4 | Unit D Topic 4 | Biomechanical Principles of Tooth Preparation |
| MDS-301 D5 | Unit D Topic 5 | Tooth Preparation for Complete Metal Crown, All-Porcelain Crown, PFM Crown, Partial 3/4 th , Radicular 7/8 th , fronional half, telescopic, pin-ledge, laminates, inlays, onlays, resin-bonded retainers. |
| MDS-301 D6 | Unit D Topic 6 | Isolation & Fluid Control |
| MDS-301 D7 | Unit D Topic 7 | Resins, Gold & its Alloys, Glass-Ionomer Restorations. |
| MDS-301 D8 | Unit D Topic 8 | Restoration of Endodontically- Treated Teeth |
| MDS-301 D9 | Unit D Topic 9 | Management of Failed Restorations |
| MDS-301 E | OSSEOINTEGRATED SUPPORTED FIXED-PROSTHODONTICS | |
| MDS-301 E1 | Unit E Topic 1 | Rationale for Dental Implants-Diagnostic Imaging & techniques, Prosthetic Options in Implant Dentistry, Available Bone & Dental Treatment Plan. |
| MDS-301 E2 | Unit E Topic 2 | Treatment Planning- Pre-implant Prosthodontics, Diagnostic Casts & Surgical Templates, Single- tooth replacement, Treatment planning for the edentulous maxilla & mandible. |
| MDS-301 E3 | Unit E Topic 3 | Fundamental Science- Medical Evaluation, Pharmacology, Applied Anatomy, Biomaterials, Biomechanics, Dental Implants Surface, Bone Response to Mechanical Loads. |
| MDS-301 E4 | Unit E Topic 4 | Implant Surgery- Surgical Guidelines for posterior/ anterior Single-tooth replacement, Implant Insertion in edentulous anterior & Posterior Mandible/Maxilla, Stage-II Surgery. |
| MDS-301 E5 | Unit E Topic 5 | Soft & Hard Tissue Rehabilitation- Bone Grafting & it's Materials, Socket Grafting, Barrier Membrane, Bone Regeneration, Maxillary Sinus. |
| MDS-301 E6 | Unit E Topic 6 | Implant Maintenance- Implant Quality of Health Scale. |
| MDS-301 F | TMJ-TEMPOROMANDIBULAR JOINT DYSFUCTION-SCOPE, DEFINITIONS AND TERMINOLOGY | |
| MDS-301 F1 | Unit F | TMJ & its Function, Orofacial Pain & Pain from TMJ, |

| | | |
|-------------------|-------------------|---|
| | Topic 1 | TMJ Dysfunction, TMJ Disorders. |
| MDS-301 F2 | Unit F Topic 2 | Etiology, Diagnosis & Craniomandibular Pain- Differential Diagnosis & Management of Orofacial Pain, TMJ Pain-psychologic, physiologic. |
| MDS-301 F3 | Unit F Topic 3 | Occlusal Splint therapy-construction & fitting of occlusal splints, management of occlusal splints, therapeutic effects of occlusal splints, TMJ Joint unloading & Anterior Repositioning appliances, Use & care of occlusal splints. |
| MDS-301 F4 | Unit F Topic 4 | Occlusal Adjustment Procedures- reversible- Occlusal Stabilisation splints, jaw exercises, jaw manipulation. Irreversible- Occlusal repositioning Appliance, Orthodontic Treatment, Orthognathic Surgery. |

| | | | | |
|-----------|--------------------------|--|--|--|
| 1. | Course evaluation | Attendance | Minimum 75% is Needed for both theory and clinical practical | |
| | | Quizzes | Taken in every 3 months | |
| | | Presentations | Video Presentation | |
| | | Any Other | Project based learning, flip learning, Assignments | |
| | | 1 st year examination | 100 Marks | |
| | | 3 rd year examination | 600 Marks | |
| 2. | Text book/s* | 1. Prosthodontic Treatment for Edentulous Patient, Bouchers, Mosby Publications, 12 th Edition. | Boucher | |
| | | 2. Removable Partial Prosthodontics | Mc. Cracken | |
| | | 3. Fundamentals of Fixed Prosthodontics | H.T. Shillinburg | |
| | | 4. Contemporary Fixed Prosthodontics | S.F. Rosenstiel | |
| | | 5. Contemporary Implant Prosthodontics, 1 st edition | Carl.E.Misch | |
| | | 6. Management of Temporomandibular Disorders & Occlusion | Jeffery.P. Okeson | |
| | | 7. Clinical Maxillofacial Prosthetics | T.D. Taylor | |
| | | 8. Maxillofacial Rehabilitation | John Beumer III | |
| 3. | Other References | TED learning EBSCOHOST Various scientific articles from various sources | | |
