Meeting was held regarding new curriculum of competency based medical education of MBBS students :

1. It is an effective method of teaching and learning.
2. It has been decided that maximum efforts would be made to encourage integrated teaching between traditional subject areas by using problem based learning approach.
3. It should include different departments - Anatomy , physiology , pathology , forensic medicine , community medicine , medicine and radiology.
4. We need to include knowledge skill , attitude and communication.
5. Level of competency should include – how much the student knows and is able to demonstrate what he knows and finally is able to perform under supervision.
6. As decided by the members the next meeting will be held in December 2019.
