I got placed in Liquidhub which is a US based MNC (now acquired by Capgemini). So talking about my placement process was overwhelming as it was 2nd company I have applied for. I got the job because of the efforts put in by our faculties and the department of training & placement. By grasping the knowledge since the last 7 semesters from our respectable teachers, I was able to clear the aptitude and 2 technical rounds in which they focused on SQL, Java, C, Database, Excel and OOPS concepts and finally I got an offer letter.

I can also vouch for Sharda University's placement as I got placed at two reputed organisations.
