SHARDA UNIVERSITY

ONE CAMPUS – A WORLD OF POSSIBILITIES

Since its inception in 2009, Sharda University has emerged as one of the premier centers for education, research and innovation in the Delhi NCR region. With a steadfast commitment to academic excellence, Sharda has been honored as one of South Asia's top institutions by the QS Asia University Rankings 2024. Its prestigious A+ accreditation from NAAC and a remarkable NIRF ranking of 86 in India affirm Sharda's position among the nation's elite Universities.

But Sharda is more than rankings—it's a global community with students from over 95+ countries, Sharda fosters an inclusive, multicultural campus that goes beyond traditional learning. This vibrant community is a melting pot of cultures, ideas, and perspectives, preparing students for a future where global collaboration is a key.

Driven by the motto, **"The World is Here, Where are You?"** Sharda University invites you to join a thriving environment that celebrates diversity, nurtures curiosity, and empowers students to become leaders on the world stage. Here, students are not just educated, they are transformed !!

DIPLOMA IN PHARMACY

Diploma in Pharmacy (D.Pharm.) is a two-year academic programme streamlined to endow in-depth knowledge of science and technique behind the formulation of pharmacy practice and medicines management. The programme fundamentally provides an overview of the conjecture principles and practices implicated in the science of pharmacy including core subjects like Pharmaceutical Chemistry, Pharmacognosy, Pharmacology and Pharmaceutics.

The curriculum and syllabi for the programme are as per the Pharmacy Council of India (PCI) the statutory body governing pharmacy profession in India. In this programme students will gain insights into the chemical and physical properties chemical structure and uses of pharmaceutical formulae. The programme encompasses knowledge about the natural medicines which are obtained from plants, animals, marine and biological sources.

Eligibility:

1. Minimum qualification for admission to Diploma in Pharmacy is 10+2 in Science (PCM/PCB) with minimum 50% marks.
2. Any other qualification approved by the Pharmacy Council of India as equivalent to any of the above examination.

Duration of the course:

The duration of the course shall be for two academic years with each academic year spread over a period of not less than one hundred and eighty working days in addition to 500 hours practical training spread over a period of not less than 3 months.

Career path you can choose after the course:

- Drug Inspector • Hospital Drug Coordinator
- Dispensing Pharmacist • Community Pharmacist
- Research Scientist • Quality Control Analyst
- Technical Writer • Analytical Chemist
- Drug Therapist • Pharmacologist
- Medical Coding • Product Manager
- Medical Sales Representative
- Quality Assurance Scientist
- Clinical Research Associate
- Product/Process Development Scientist
- Pharmaceutical Manufacturing Scientist
- Pharmacovigilance Associate
- Drug Regulatory Affairs Officer

BACHELOR OF PHARMACY

Bachelor of Pharmacy (B.Pharm) is a four-year undergraduate programme designed to introduce students to pharmaceutical drugs and its impact on human body. The programme helps students in developing the skills essential to counsel patients about medication and use of drugs. The curriculum and syllabi for the course are as per Pharmacy Council of India (PCI) the statutory body governing pharmacy profession in India. The core pharmacy subjects include Pharmaceutics, Pharmaceutical Chemistry, Pharmacognosy & Pharmacology. The industrial visits and equally important practical sessions ensure students receive a perfect exposure to the real-world situations while learning.

Minimum qualification for admission:

First year B.Pharm.:

Candidate should have passed 10+2 examination conducted by the respective state/central government authorities recognized as equivalent to 10+2 examination by the Association of Indian Universities (AIU) with English as one of the subjects and Physics, Chemistry, Mathematics (PCM) and or Biology (PCB/PCMB) as optional subjects individually with minimum 50% marks or any other qualification approved by the Pharmacy Council of India as equivalent to any of the above examinations.

B. Pharm. lateral entry - 2nd year (3rd semester):

An Individual must have qualified D.Pharm. course from an institution approved by the Pharmacy Council of India under section 12 of the Pharmacy Act.

Duration of the programme:

The course of study for B.Pharm. shall extend over a period of eight semesters (four academic years) and six semesters (three academic years) for lateral entry students. The curricula and syllabi for the programme shall be revised and updated by Pharmacy Council of India.

Career path you can choose after the course:

- Drug Inspector • Hospital Drug Coordinator
- Dispensing Pharmacist • Community Pharmacist
- Research Scientist • Quality Control Analyst
- Drug Therapist • Product Manager
- Quality Assurance Scientist • Pharmacologist
- Analytical Chemist • Technical Writer
- Clinical Research Associate • Medical Coding
- Medical Sales Representative
- Product/Process Development Scientist
- Pharmaceutical Manufacturing Scientist
- Pharmacovigilance Associate
- Drug Regulatory Affairs Officer

M.PHARM PHARMACEUTICS

M Pharm in Pharmaceutics is the science of the formulation and production of various medications. The program gives information on the numerous advancements in medication, the pharmacy industry and drug delivery operations that have occurred. It is concerned with the pharmaceutical production process. Students will understand how pharmaceuticals are developed and manufactured in businesses. It entails the use of cutting-edge techniques in drug manufacture, drug delivery systems, product creation, and advanced analytical procedures.

Scope of M. Pharm (Pharmaceutics):

M Pharm Pharmaceutics is a futuristic course that will aid students in learning and understanding the pharmaceutical manufacturing process. It also educates you about the technologies utilized by pharmaceutical businesses to manufacture their products. You can select between core jobs and non-core jobs. After earning an M.Pharm. in Pharmaceutics, you can pursue a career in the field of education, where you can do research, teach, and so on. There are job prospects in manufacturing, drug regulatory affairs, and drug development, among other fields. PhD in Pharmacy or other relevant disciplines are some other popular options after obtaining an M. Pharm Pharmaceutics degree.

Eligibility:

Minimum qualification for admission

A Pass in the following examinations

- B. Pharm Degree examination of an Indian university established by law in India from an institution approved by Pharmacy Council of India and has scored not less than 55 % of the maximum marks (aggregate of 4 years of B.Pharm.)
- Every student, selected for admission to post graduate pharmacy program in any PCI approved institution should have obtained registration with the State Pharmacy Council or should obtain the same within one month from the date of his/her admission, failing which the admission of the candidate shall be cancelled.

Note: It is mandatory to submit a migration certificate obtained from the respective university where the candidate had passed his/her qualifying degree (B.Pharm.)

Duration of the course:

The program of study for M.Pharm. shall extend over a period of four semesters (two academic years). The curricula and syllabi for the program shall be prescribed from time to time by Pharmacy Council of India, New Delhi.

PHARM D.

After completing Class 12 in the Science academic stream, students can pursue a 6 years Pharm.D. which entails 5 years of academic study and 1 year of internship or residence. The Pharmaceutical Council of India oversees the Pharm D course.

Scope of Pharm D:

The Pharm D course offers a unique mix of advantages, but it also gives students an edge in a cut throat market. Pharm D course is highly sought after. Since they assist patients and locals with their health and well-being, pharmacists are an essential part of the community.

- There are several work prospects in this industry after pursuing a Pharm D course. Pharmacists can find employment in a range of contexts, such as businesses, nursing homes, hospitals, colleges, and the healthcare industry.
- These days, the Pharmacy industry is growing quickly. The Pharmacy industry in India is expected to grow to a value of USD 65 billion by 2024 and to a value of USD 130 billion by 2030, according to IBEF research.
- The Doctor of Pharmacy graduates enjoy flexible working hours that enable a healthy balance between work and personal life.

Eligibility:

- a) Pharm.D. Part-I Course – A pass in any of the following examinations –
- 10+2 examination with Physics and Chemistry as

compulsory subjects along with one of the following subjects: Mathematics or Biology.

- Any other qualification approved by the Pharmacy Council of India as equivalent to any of the above examinations.

Provided that a student should complete the age of 17 years on or before 31st December of the year of admission to the course. Provided that there shall be reservation of seats for the students belonging to the Scheduled Castes, Scheduled Tribes and other Backward Classes in accordance with the instructions issued by the Central Government/State Government/Union Territory Administration as the case may be from time to time.

Duration of the course:

a) Pharm.D:

The duration of the course shall be six academic years (five years of study and one year of internship or residency) full time with each academic year spread over a period of not less than two hundred working days.

The period of six years duration is divided into two phases –

Phase I – consisting of First, Second, Third, Fourth and Fifth academic year.

Phase II – consisting of internship or residency training during sixth year involving posting in speciality units. It is a phase of training wherein a student is exposed to actual pharmacy practice or clinical pharmacy services and acquires skill under supervision so that he or she may become capable of functioning independently.
