# SHARDA UNIVERSITY

ONE CAMPUS – A WORLD OF POSSIBILITIES

Since its inception in 2009, Sharda University has emerged as one of the premier centers for education, research and innovation in the Delhi NCR region. With a steadfast commitment to academic excellence, Sharda has been honored as one of South Asia's top institutions by the QS Asia University Rankings 2024. Its prestigious A+ accreditation from NAAC and a remarkable NIRF ranking of 86 in India affirm Sharda's position among the nation's elite Universities.

But Sharda is more than rankings—it's a global community with students from over 95+ countries, Sharda fosters an inclusive, multicultural campus that goes beyond traditional learning. This vibrant community is a melting pot of cultures, ideas, and perspectives, preparing students for a future where global collaboration is a key.

Driven by the motto, *"The World is Here, Where are You?"* Sharda University invites you to join a thriving environment that celebrates diversity, nurtures curiosity, and empowers students to become leaders on the world stage. Here, students are not just educated, they are transformed !!

A venture of Sharda Hospital

# SHARDA SCHOOL OF NURSING SCIENCE & RESEARCH

Established with an aim of developing top Nursing professionals, the Sharda School of Nursing Science & Research has evolved into one of the leading Nursing School in Delhi NCR. The school is committed to provide a transformative learning experience in a collaborative and diverse environment. The School's advanced learning equipment; focus on research & hi-tech laboratories give students a feel of practical & Immersive education.

## VISION

To serve society by emerging as one of the prime contributors of competent Nursing Professionals with academic excellence, human values and ethics.

## MISSION

- To train students to become Nursing Professional's responsibility to hold various positions in health sector.
- To groom students by emphasizing more on nursing care and community practices.
- To promote interdisciplinary research collaboration among students and faculty for upgrading their skills to adapt to global best practices.
- To provide opportunities for students to explore and acquire leadership qualities.

## CORE VALUES

- Integrity • Leadership • Diversity • Community

**Prof. (Dr.) Reddeppa Sreeraja Kumar**  
Associate Dean & Professor, Sharda  
School of Nursing Science and Research  
**Experience:** 18+ years

Nursing profession bears the prodigious task of revolutionising the health and healthcare systems that improves education, leadership and practice in nursing. Sharda School of Nursing Science and Research, Sharda University has been striving for creating nurses who play a key role in transforming health care and improving health by means of finding innovative and effective ways to provide seamless, affordable, and safe quality care that will produce improved health outcomes, which is a real challenges these days. Sharda School of Nursing and Research is committed to encounter these challenges by preparing student nurses who have a broad understanding of the professional aspects by encouraging high-standard theoretical and clinical practice along with research application, which ensures safe and competent nursing practice.

The tasks lie in the talented and dedicated faculty members and researchers at the Nursing School. They are passionate about improving health through mentoring by providing individual attention to the next generation of nurses. We take great pride in producing efficient Nurses who carry forth the tradition of excellence.

In these challenging times COVID pandemic, our students have been provided with remote learning by our expert faculty so that they can be prepared themselves to render their competent nursing services as frontline health care warriors during newly emerging pandemic situations in future across the globe. I recommend you to look into the various options we have to offer for education and vocation that makes a meaningful distinction in your career path.

## FACULTY THAT'S TRULY INSPIRING

**Prof. Kiran Sharma**

**Ph.D. in Nursing**

## **PLACEMENT PARTNERS**

## B.Sc. (NURSING)

The B.Sc. Nursing program is a four-year undergraduate course designed to develop critical care professionals with advanced thinking skills and ethical values essential for nursing and midwifery. It aligns with the National Health Policy 2003 to prepare students to address national healthcare needs. The program emphasizes moral conduct and social, personal, and professional responsibilities. It includes classroom learning, projects, & assignments to enhance practical knowledge. After completing the course, students must undergo a six-month internship to gain real-world clinical experience. Graduates can further their education in the field for more advanced career opportunities.

## B.Sc. (POST BASIC NURSING)

The Post Basic B.Sc. Nursing (PB B.Sc.) is a two-year graduate program designed to provide an in-depth understanding of advanced-level nursing. It helps students enhance their knowledge and skills to deliver comprehensive medical care. The program prepares them for both surgical and non-surgical roles in various real-world hospital settings. It emphasizes independent decision-making, patient care, and professional responsibilities. The curriculum includes subjects like Maternal Nursing, Medical & Surgical Nursing, Microbiology, and Mental Health Nursing. Additionally, students learn about Nursing Research & Statistics to develop problem-solving abilities using scientific methods. With a strong focus on industry-based training, the program equips students with the necessary expertise & understanding of nursing as a profession.

## M.Sc. (NURSING)

The M.Sc. in Nursing is a two-year graduate program designed to provide advanced knowledge of nursing methodologies and principles. It includes subjects like Advanced Nursing, Clinical Practice Specialty, & Nursing Management, training students to manage hospital and clinic activities effectively. The program emphasizes collaborative work, data evaluation, critical thinking, and decision-making skills, allowing students to develop practical solutions for real-life nursing challenges. Additionally, candidates gain insights into the ethical and legal aspects of nursing, as well as the commonalities among various diseases. The course helps students understand the relationship between diseases & symptoms, enhancing their diagnostic abilities.

### Specializations:

- Community Health Nursing
- Obstetrics & Gynecology Nursing
- Paediatrics (Child Health) Nursing
- Medical Surgical Nursing
- Psychiatric (Mental Health) Nursing

## Ph.D. IN NURSING

Ph.D. in Nursing is a research-based Doctorate degree. This course entails conducting Nursing Research to improve healthcare facilities. The highest level of study a nursing student can attain is Ph.D in Nursing. It is an outstanding intellectual accomplishment that, when used, has the power to alter the healthcare system for the benefit of people.

Ph.D in Nursing is a research-oriented doctoral degree that emphasizes top-notch, academic research that promotes both nursing education and the nursing profession as a whole. Nursing scholars who will contribute to the development & application of knowledge for improving the quality of nursing education, research, service, and dissemination are prepared through doctoral study.
