

## Important Dates:

Email: [conference.law@sharda.ac.in](mailto:conference.law@sharda.ac.in)

E-certificates will be provided to all the Paper presenters and participants.

## Registration & Submission

- Abstract Submission(on email): **25th Dec, 2020**
- Intimation of selection: **30th Dec, 2020**
- Registration, Fee submission & Full Paper Submission in Google Form: **20th Jan., 2021**

## Registration Fees

**Students: Rs. 750/-** for single author with co-author 1000/- if any

**Scholars: Rs. 1000/-** for single author with co-author Rs. 1250/- if any

Academicians, Practitioners/Representatives of Governmental and non-governmental organizations: **Rs. 1500/-** per participant (Additionally **Rs. 500/-** for co-author, if any)

**International Submissions: USD 20**

**Participation Fee for those who are not presenting papers: Rs. 500/-**

Name of Account Holder:

**SHARDA UNIVERSITY SCHOOL OF LAW**

Account Number: **912010034705440**

IFSC Code: **UTIB0000624**

Bank Name & Address:

Virtual International Seminar on

# GREEN INTELLECTUAL PROPERTY & CLIMATE CHANGE MITIGATION TECHNOLOGIES: WAY AHEAD

Saturday 6<sup>th</sup> February, 2021

## About School of Law, Sharda University

Sharda University, established through an act passed by U. P. legislature (14 of 2009) and permitted by University Grants Commission to award degrees under Section 22 of the UGC Act 1956, is a leading educational institution based in Greater Noida, Delhi NCR. A venture of the renowned SGI group, the University has established itself as a high quality education provider with prime focus on holistic learning and imbuing competitive abilities in students. The University is approved by UGC & prides itself in being the only multi-disciplinary campus in the NCR, spread over 63 acres & equipped with world class facilities. The School of law, permitted by Bar council of India letter no. BI: D: 815/2012 (LE mtg 3rd March, 2012) has been established as a constituent of Sharda University, a private University, The Bar Council of India after inspection of the academic and physical infrastructure has permitted Sharda University for running five year integrated B.A. LL.B. (Hons.), BBA LL.B. (Hons.), LL.M. & Ph.D. programmes. School of law aims at equipping its law students not only with the traditional professional expertise to become successful advocates and solicitors but for a wide ranging career options viz. business partnerships, managerial assignments, politics, diplomacy, social work, consultancy assignments, teaching and research work through its wide based curriculum with an aim to develop intellectual competence and analytical skills coupled with ethical sense of role and purpose.

## About The Conference

In the wake of Climate Change scenario going green has become the necessity for the sustainable existence. Going forward to our survival in this century depends on the resilience and capacity to mitigate Climate Change. Given that the global climate crisis poses a difficult challenge, Green Technology is unfalteringly being recognised as a solution to the crisis. The term 'Green Technology' signifies any kind of environment friendly or clean technology. It further relates to the products and innovations of devices used in environmental science, green chemistry, environmental monitoring, promote sustainability and conserve the natural environment. Green technology includes varied nature of products and systems. Green technology is way forward to reduce emission and help mitigate Climate Change. It covers technologies that help to both adapt to and mitigate the impacts of climate change. There is necessity to embolden green technology to meet the commitment of Paris declaration by keeping the global warming rise in control.

Intellectual property rights are fundamental to technological innovation and development as they are conceptualised in the form of proprietary rights that can be further transferred, registered, granted and secured from infringement. The term 'Green Intellectual Property' refers to the protection of innovations in the field of green technology. It is a concept where innovations which are helpful to environment in one or the other way are legally protected.

It is crystal clear by now that the pro-active policy and programmes of governments in partnership with the private sector are sine qua non to protect the depleting natural resources. India has already taken steps in this direction by proactively working towards more sustainable future with the help of renewable energy sources i.e. solar, hydro and wind energy. Recently, India achieved 5th global position in solar power deployment. Solar power capacity has increased by more than 11 times in the last few years. Further India has taken long strides towards being a first country which will be 100% using the LED for its lighting needs as this technology is green technology hence environment friendly. India is focusing on the renewable energy sector in a big way.

Mr. Suresh Prabhu former Indian union minister stated "The energy and environment are the two sides of the same coin. So how do you generate energy is going to be determining to what extent you are compromising, whether or not, with climate security, environmental concerns. Therefore, let everybody together ensure that the greenhouse gases (emissions) are limited".

## Objectives

- To deliberate upon the Intellectual Property Rights in special context to climate change.
- To promote the sustainable development with the help of Intellectual Property Rights with the discussion on green Intellectual Property.
- To explore the issues related to technological transfer in the area of green Intellectual Property.
- To promote creation and exchange of knowledge among professional, academicians and scholars in this the area of Green Intellectual Property and Climate Change mitigation technologies

## Call for Paper

The organizers of the International Conference call upon the academicians, practitioners and legal professionals, representatives of governmental and non-governmental organizations, research scholars, students etc. to send their unpublished research papers on broad themes mentioned below:

## Broad Themes

- Building and Construction related green Intellectual Property
- Energy related green Intellectual Property and Climate Change mitigation
- Farming and Forestry and need for Green Intellectual Property
- Pollution and Waste management menace and need for Green Intellectual Property contribution
- Transportation pollutants and Climate Change need for Green Intellectual Property
- Industrial and chemical waste management and its impact on Climate in view of Intellectual Property solutions in the area.

These themes are suggestive and the author can send the articles on any topic related to the Main theme of the International Conference

## Guidelines for Abstracts

Abstracts should be without bullet points in paragraph form and should not exceed 350 words. In addition, information regarding the context, intent, processes, findings, and conclusions should be included in the abstract. Co-authorship up to 2 authors are allowed.

All abstracts must be submitted by 25th December 2020. Abstracts will be reviewed by an organising committee of scholars. Based on the academic exactitude, significance to conference theme, and innovativeness of the content, abstracts will be selected. Authors of accepted abstracts are invited to submit, full paper of not more than 5000 words.

## Guidelines for Paper

1. Original and unpublished research papers are invited on aforementioned themes.
2. Co-authorship is allowed up to two authors per submission.
3. The full paper should have a cover page containing the following information:
  - a. Title of the Paper and relevant sub-theme
  - b. Author's Name (s)
  - c. Designation and Organisation / Institutional Affiliation
  - d. E-mail address
  - e. Contact Number
4. The Word file should be saved in the name of the author (first author's name in case of joint authors). This should be followed for both Abstract and Full Paper Submission.
5. The full paper is to be submitted in a Word document according to the following specifications:
  - i. Title: Times New Roman, size-14, Bold, 1.5 line spacing, centre-aligned.
  - ii. Main Body: Times New Roman, size-12, 1.5 line spacing, justified.
  - iii. Heading: Times New Roman, size-14, Bold, 1.5 line spacing, centre-aligned.
  - iv. Sub-headings: Times New Roman, size-13, Italicized, 1.5 line spacing, centre-aligned.
  - v. Footnotes: Times New Roman, size-10, 1.0 line spacing, justified.
  - vi. Margins: One inch on all four sides.
  - vii. BLUEBOOK footnoting citation method to be followed (19th Edition)
6. All submissions should be within 5000 words.
