**Two Days National Webinar on**

**INNOVATIVE STRATEGIES  
IN TEACHING-LEARNING:  
*THE EMERGING PARADIGM***

**13th & 14th**

**October**

**2020**

## INTRODUCTION

Innovation in education encourages teachers and students to explore research and use all the tools to uncover something new. It involves a different way of looking at problems and solving them. The thinking process that goes into it will help students develop their creativity and their problem solving skills. By exploring new and better ways to educate students and also teaching the skills students need to become innovators themselves, today's educators can have a tremendous impact on the future of our world. Using innovative teaching methods to better serve students and to teach them about the benefits of innovative thinking does so much more than just "fill the pail." It ignites a passion for learning and provides students with the tools they need to succeed in the innovative economy. This webinar will discuss the various innovative strategies that can be used by Teachers in order to bring desired learning and highlights the various digital as well as collaborative techniques with their challenges and issues in deeper sense. A new paradigm of teaching and learning is needed to increase the pupil's active participation, perception and cognitive development.

## OBJECTIVES OF THE EVENT

The specific objectives of the webinar are:

- To enable the faculty and students in capacity building & development of skills engaging latest technological devices to effective teaching and learning.
- To appraise ICT resources for effective teaching-learning.
- To provide a forum for educational institutions to share experiences on their explicit or implicit educational innovative strategies.
- To introduce innovative strategies of teaching-learning and to provide the participants with an opportunity to develop their own pedagogy.
- To discuss new innovations of education in both organisational and pedagogical aspects.

## SUB-THEMES

- Digital Technology in Classroom
- ICT Resources for Teaching and Learning
- Cooperative Learning
- Diversity Pedagogy-A Key to Inclusion
