## **SECTION B: Event report and reflection**

### **1. Event objectives-**

- a) The Expert lecture will address the strategies for Improving the NIRF (National Institutional Ranking Framework) ranking of Higher Education Institutions (HEIs)
- b) The event will also apprise about evaluation methods of institutions across various parameters.

### **2. Event description:**

The IQAC organized Expert Lecture on “Strategies to Improve NIRF Ranking of Higher Education Institutions (HEIs)” on 19-10-2024. The talk was delivered by Prof. (Dr.) S.K. Yadav, Director (Academic and Research), JYT University.

Professor Yadav discussed the various parameters laid down by NIRF and strategies for enhancing performance in each area. He also explained how the percentage weightage is calculated and various methods to improve it. Teaching, Learning & Resources can be optimized by various techniques including recruitment of qualified faculty members, ideally with Ph.D. degrees and implementation of regular faculty development and training programs. Besides, adequate and updated learning materials and digital access for students must be available. He said that Research & Professional Practice can be strengthened by encouraging faculty and students to publish in high-impact, indexed journals (Scopus, Web of Science). In addition to this, the University must apply for research grants from national and international funding agencies. First of all, Target Setting and Planning must be done by defining clear short-term and long-term goals for each NIRF parameter. The University must keep a track of Data Management by Setting up a centralized data system for accurate and real-time tracking of NIRF metrics. It may also conduct annual internal audits and mock NIRF assessments. The event also included various queries which were taken up by the speaker. The lecture was informative and insightful.
