Specific Comments

Please share some good teaching learning practice which has brought positive result in your classroom.

- We have learnt how to upload videos in LMS
- I have used PPT during delivering of lecture
- Common examples from daily life can make teaching very interactive.
- More involvement of students are required
- Interactive and innovative
- Interactive and discussion based teaching helps a lot
- Students interactive learning in terms of variable test
- Gave reading material in advance & it helped students to discuss in class
- Presentation tube and google drive is very good method to get into practice to save for the future
- Introduced good tools which can be included in my teaching schedule to make my classroom more interactive and positive for students
- I used the share some useful videos related to my subject and then I had discussion on it with my students. This create a very interactive environment which makes the effective learning of the students
- If we implement the ideas given in session 2 & 3 then we can get good results in teaching learning

Please suggest other areas of capacity building with an aim to enhance the quality of the teaching learning process.

- Kindly provide one full day workshop from Dr. Srinivas to get more teachings on the topic
- More interactive sessions are required for better understanding
- The session by Prof Srinivas was highly beneficial, would like attend more such program
- Would like to attend more workshops like these, Very informative
- Education should be learning centric rather than examination centric
- Content of workshop should be provided at least on week before the commencement
- Good step, we learnt how to prepare material to the students
- The request for additional time for ICT learning teaching
- More training session to be conducted, IQAC is doing well. We appreciate the efforts
- Only above average students should be selected for B. Tech admission so that we have good placement and they can uplift the name of Sharda University
- Need good quality students, teacher/faculty need time to prepare quality lecture which must for them
- Thanks to the speaker, very nice and knowledgeable presentation there should be 10 minute break after one hour, it is too painful 2.5 hrs lecture at a stretch.
- It was very nice and interesting fact that make us to aware about the maximum use of software. Looking forward for next session
- More session by Prof Srinivas, he is excellent
- Last session which was on using presentation tube should be a litter moral. As for the last presentation time is less, so more doubts remained in our mind
