I get to know about gender sensitisation and recognised the broad view of the problem.

They were so kind and helpful

It was a great experience

It works smoothly.

Gender sensitisation committee is a committee that runs to provide an integrated and interdisciplinary approach to understand the social and cultural constructions of gender that shapes the experiences of women and men in society.

I learnt alot that gender equality is a human fight not a female fight

Gender सेंसटाइजेशन comittee should be first good in all respect then work

It's a very nice event, and we learn lot a frm this.....

Learned new topics

It creates a positive culture at home, workplace and in society.

Gender sensitization is the teaching of gender sensitivity and encouragement of behavior modification through raising awareness of gender equality concerns. In other words, it is the process of making people aware of gender equality and the need to eliminate gender discrimination.

Good shall do much better

It works for spreading awareness about gender equality, organising several competitions and speaker sessions.

I got know about all the overall working so well through the event

The GSC is a necessary committee that each institution should have for ensuring and safeguarding the rights of every individual irrespective of their gender.

Are there any suggestion/ideas which can help us to improve the conduct similar trips in near future?

15 responses

No

No such advice

No need to

It was perfect

There should be separate competition or separate groups for first , second and third year

.

Circulate this thing to more and more people

There should be more competition to be organised

No

This type of event should be held at a regular interval

Everything is appreciable.

Quiz should be added in competition

Would really appreciate if results are announced online too via emails.

Thank you for your time and cooperation. Best Wishes

I got to lean that equality of women is important and there are many issue raised regarding these and the scenario is changed now.

Good event. Informative.

It was very nice

Domestic violence is injury for health and give equal right for women

.

We have to consider both man and women equally

We have to consider man and woman equal

.

Are there any suggestion/ideas which can help us to improve the conduct similar trips in near future?

No

More information and more games.
