2.6 Innovative processes adopted by the institution in Teaching and Learning:

The University from its very inception has had a learner centric approach which has evolved through the years. The curriculum is regularly revised with feedback received from subject experts, industry experts as well as student consultative committees constituted in every department. The processes adopted by the University to strengthen teaching and make the teaching learning effective and contemporary are as follows:

Academic Flexibility: Students are offered a number of electives to choose from. This provides them with a wider choice of courses within their domains.

Course Delivery: A blended approach is employed wherein the students are exposed to hands on learning through workshops, role plays and live projects so as to make learning a relevant and enjoyable experience. Effective use of technology as a pedagogical tool is also steadily evolving through the Learning Management System, a robust online portal which enables students to access all course related information.

Collaborative courses: With a view to meet the 21st century learners' needs, the University has introduced courses in collaboration with industry partners like KPMG, Times Pro and a number of reputed multinational companies.

Skill Based courses: Taking cognizance of the skills gap which exists in the country, a number of skill based courses are introduced periodically to retain the contemporariness and dynamism in the curriculum. The University also lays great emphasis on bridging the linguistic issues faced by students coming from diverse backgrounds.

Global exposure: Catering to the needs of learners from across the globe and all Indian states, the University has introduced a course in Indian Culture and Heritage for undergraduate students to give them an overview of our rich cultural heritage. Students aspiring to travel overseas for further education have the option of equipping themselves with working knowledge of international Languages. Students from the business school engage in international tours which provide them with global exposure.

Experiential Learning/ Taking learning beyond a fixed curriculum: With the aim to making learning exciting and experiential, an initiative towards 'Tinkering Labs' have been taken in areas of Computer Science & Engineering, Automobile Engineering and Electrical & Electronics Engineering.

Close Academic Monitoring: The University has strengthened its academic monitoring system through intensive academic counselling, keeping checks on student attendance through an online system accessible to parents and providing remedial sessions to slow learners identified by academic advisors. Regular lectures audits by heads of departments and Deans keeps a close check on the quality of teaching.

2.12 How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes:

The IQAC primarily focuses on the improvement of students' experience. It is involved in the planning of robust processes to facilitate smooth functioning of the administrative and academic departments. The following processes are monitored by the IQAC:

- Student attendance monitored periodically.
- Timelines for uploading relevant documents on the intranet for information to students and all stakeholders.
- Course coverage with respect to the course plan proposed in the beginning of every semester
- Examination process to ensure fair and meaningful evaluation
- Program wise and course wise Result analysis
- Student feedback per semester
- Ensuring that schools forward attendance and marks to parents

In addition to the above, all Head(s) of departments at the University are required to compile monthly reports and yearly reports pertaining to Institutional and Student processes. The reports submitted are audited periodically by the IQAC team to check for information gaps.

The above initiatives by the IQAC have helped to:

- Identify and minimize gaps in processes.
- Take corrective measures to achieve the larger goals of the University
- Strengthen the mentoring of students as well as faculty

3. Research, Consultancy and Extension

3.1 Initiatives of the IQAC in Sensitizing/Promoting Research Climate in the institution

As per our core research focus, University develops R& D competencies in the specific domain areas of science, engineering, medical and management studies with focus on inter-disciplinary research providing solutions to important issues facing society with emphasis on local problems. In the meeting of IQAC, it has been decided that each department shall have continuously update information about the research activities at the department level.

On the initiative of IQAC, following action has been taken to promote research climate in the University:

- Provision for seed money for research
- Identification of new research areas and deployment of internal resources to implement through PhD research.
- Facilitations of faculty members to explore new research areas, to generate initial results, and to submit proposals to funding agencies.
- Facilitating lectures, training and workshops for the faculty and students to create a symbiotic environment of interdisciplinary research.

Criterion – VI

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

Vision: To be a Global Centre of Learning to promote Professional Excellence and Innovation.

Mission:

- Creating a stimulating and flexible learning environment for its faculty and for its students
- Leveraging academic research to form strong industry linkages
- Developing a culture that strongly promotes innovation and continued betterment in all facets of life

6.2 Does the Institution has a management Information System

- Yes, the University is using Oracle PeopleSoft ERP supporting business process of Accounts, Human Resources and Campus Solutions. This facilitates overall transactional and reporting capability.
- This ERP is also integrated with mobile applications for automating specific student lifecycle areas like Attendance, Learning Management System etc.
- In the campus Internet over Wi-Fi is available to authorised recipients (student faculty & staff) under strict “AAA’ authentication system “ Uni- Box-500”
- The Internet bandwidth is being used from two different ISP. The amount of bandwidth delivered from ISP’s are One Gbps and 465 Mbps respectively.

6.3 Quality improvement strategies adopted by the institution for each of the following:

6.3.1 Curriculum Development

- Regular updating of curriculum is done with the intent of providing fair balance between conceptual content and application content.
- Curriculum modules are updated at the beginning of Academic year and are carried at various levels. First level is carried out by Faculty Board – constituted of senior Professors and HOD of respective area. Second level- Board of Studies composed of Industry representatives, Area heads and Dean of School. The school level recommendations are deliberated by Academic Council to ensure their alignment to

mission of University. The approved recommendations are then implemented and monitored at the school & faculty level.

- All programs are run on semester pattern, except those governed by respective councils. School of Applied Health Sciences will implement semester system from the academic year 2017-18.

6.3.2 Teaching and Learning

- Area wise Academic review is conducted at departmental level to discuss issues faced by students in learning
- LMS has been introduced for sharing online lecture plans, notes, and assignments etc. with students.
- Remedial classes for a number of subjects are conducted by the schools to help slow learners. Remedial English is offered to students from diverse backgrounds to help them bridge the linguistic gap. Communicative Hindi classes for international students to acclimatize themselves to the local environment have been conducted by SOLC.
- V-attendance application is used for recording student attendance as well as enabling students to check their attendance in real time.
- Apart from formal teaching feedback System, informal teaching feedback is obtained from student consultative committees at school level.
- Industrial visits, workshops and guest lecturers have increased.
- Faculty members are motivated to engage in MOOC (Massive Online Open Courses)

6.3.3 Examination and Evaluation

- External Audit of examinations is integral part to ensure quality upgradation in the evaluation system.
- University Examination system is based on Continuous Assessment process which captures students on going progress through traditional pencil paper evaluation and also experiential techniques like role plays and presentations. Skill based components of pedagogy are captured in Continuous Assessment.
- Students are made aware of examination process and rules and regulations in the beginning of academic year itself. Examination process champions at school level explain the examination details to students during the Program Orientation sessions.
- Students are shown evaluated answer sheets of examinations including end term examinations.
- Result analysis is prepared by all academic departments; the data is used to improve pedagogy and contents for concerned subjects.
- Basic strategy is to ensure fair and continuous evaluation with utmost transparency.

6.3.4 Research and Development

- Quality awareness has been created to increase publication of papers in Scopus indexed journals.
- Scheme of seed money for research launched (notification no: SU/Reg/Notification/2017/346)
- Workshops organised on formulation of research proposals
- Various conferences have been organized by different schools.
- Incentive schemes aid in creating motivating environment for the faculty to seek research grant from government and corporate.
- Provide financial and administrative help to faculty in filing patents

6.3.5 Library, ICT and physical infrastructure / instrumentation

- Library systems are automated and upgraded for latest features.
- ERP system of the University is upgraded to latest version for future preparedness.
- Strong emphasis on automation and digitisation of systems that led to solutions like Virtual Attendance, eLearning/LMS, Library system, HR Support System, Hostel Automation, Dynamic Quality Forms, Passport/Visa reminder utility, Automated Question paper system etc. thereby reducing turnaround time and bringing operational efficiency.
- Efforts have made towards realising the aim of a green campus through a number of plantation drives
- Amenities on campus like, departmental & medical stores, Apple service centre, gymnasium, auditoriums, food outlets and playgrounds are operational

6.3.6 Human Resource Management

- Conducted capacity building programs like Faculty Development Program, Research Workshops for faculty as well as training programs for other employees.
- Industry and Academia experts are invited to guest lectures.
- Performance Appraisal is conducted annually for employees, both permanent and contractual in association. Performance Appraisal and Reward system (PARS)-is a appraisal tool used for Faculty (PARS-F) and Staff (PARS-S).
- Induction programs are offered to all newly inducted faculty. Team building is an important component of all developmental programs.

6.3.7 Faculty and Staff Recruitment

- Analysis of manpower requirement is done during annual academic planning to ensure optimum utilisation of faculty and staff.
- Both Internal and External sources of recruitment are used to enhance diversity and raise sufficient pool of candidates for selection at all levels.
- Employee referrals scheme is also used for filling faculty positions.

6.3.8 Industry Interaction / Collaboration

- The University organises a Career Counselling Week annually, scheduled in the third week of August
- Long term MOUs signed with Global Logic, Tech Mahindra, Documatics, Savitri Telecom, RV Group, Reliance Jio, Idea Cellular etc to up skill the students.
- Industry Visits with an aim to provide exposure to practical processes of the industry are organised for students and faculty
- Faculty training conducted by Global Logic, Tech Mahindra and Sector Skill Councils- NASSCOM, ESSC, TSSC, RSDC, PSSC on emerging technologies.
- Conducted Industry- Academia meet on and off the campus.

6.3.9 Admission of Students

- Admission Strategy is to enhance cross cultural diversity and attract meritorious and deserving students from India and other countries by offering scholarship schemes.
- Counselling of students to enable them to make right choice about programs.
- While deciding intake capacities and selecting students for the programs, Industry requirements are also considered.

6.4 Welfare schemes for

For UG Programmes Yes ☒ No ☐

For PG Programmes Yes ☒ No ☐

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

- Audit of complete examination process at multi-level is carried out.
- Corrected Answer books are shown to the students and in case of discrepancy complete refund of re-evaluation fee is done.
- University is moving towards adopting software for setting a question bank of examination papers.

6.10 What efforts are made by the University to promote autonomy in the affiliated/ constituent colleges?

- University has empowered its constituent colleges to take decisions about teaching, curriculum planning, and course administration at the Board of studies and faculty board level. All processes are guided by the UGC Norms.

- University management provides leadership and strategic planning. Leadership at institutional level provides annual planning progress review, implementation of corrective measure to achieve organizational goals and commitment ethical conduct from all stake holders (administrators, Staff, Students).
- Each constituent college has its hierarchy in place (Dean, Head of Department, Program Coordinators, and Assistant Registrar).
- IQAC is working at three levels -: Academic, Administrative, and University IQAC

6.11 Activities and support from the Alumni Association

- Every year graduating students assisted by pre-final year students are nominated to work for Alumni Cell along with a faculty coordinator.
- The Alumni cell works towards compilation of Alumni Data and its updation.
- Annual Alumni meets are organised by the alumni cell office bearers of University.
- The Alumni Association provides the information about the availability of jobs in the sector where they are working.

6.12 Activities and support from the Parent – Teacher Association

- Regular formal meetings are held once a semester by respective schools.
- Feedback on student performance (academic & Non-academic) is communicated to parents. Mentoring portal data is being linked to parents also.

6.13 Development programmes for support staff

- Internal Skill based Training programs like Email etiquettes etc.
- IT related trainings are regularly provided.

6.14 Initiatives taken by the institution to make the campus eco-friendly

- 1 Mega Watt roof top solar power plant has been installed and is working. All the hostels have got solar heating facility for hot water requirement.

-
- Sensor based automation installed for energy conservation.
 - National energy conservation day celebrated with schools for creating awareness among school children.
 - The waste water of RO is used for gardening. All the water pumps have sensors, so that water does not overflow.
 - Maintenance of drinking water resources.
 - Conduct Cleanliness drives.
 - Green Audit done.

7. Innovations and Best Practices

7.1 Details of the Innovations introduced:

Details of innovations introduced during this academic year which have created a positive impact the functioning of the Institution are as below:

- The interaction with the Industry has increased through QCI ZED Industry Awareness Programmes. The University is in process of tying up with Uttar Pradesh Industry Association for having close interaction and training the MSME units in the given territories.
- The University has also signed MOU with NSDC for Skill Training in more than 10 Sectors.
- The University has tie-ups with following sector skill council;
 - National Association of Software and Services Companies (NASSCOM)
 - Telecom Sector Skill Council (TSSC)
 - Electronics Sector Skill Council (ESSC)
 - Power Sector Skill Council (PSSC)
 - Rubber Skill Development Council (RSDC)
- The Skill Training part at level 5 and above is being incorporated by the University as part of its Curriculum and further certification by the respective Sector Skill Councils.
- The University has installed PeopleSoft Application to manage the Campus, HR, Finance and Procurement. Solutions on its campus making the Campus administrative work almost paper less.
- Online Payment Portal enables students to pay fee through cheques/ DDs/ NEFT/ RTGS/ Paytm / Credit Cards / Debit Cards.
- Campus Solutions /Digitisation have been strengthened to improve admissions and other processes of the University.
- Mobile based Applications of ERP have been strengthened
- V-Attendance app has been launched to record, track and manage attendance
- Learning Management System (LMS) has been introduced to enable faculty upload learning materials, assignments and organize quizzes.
- Automated Question Paper System (SAQPGS) has been introduced that provides an extensive online portal to view, manage and edit question papers. The portal also provides a notification feature, which can be used for communication between various stakeholders.

- Process Automation done for the purpose of :
 - Internal Quality Assurance Cell (IQAC) with Dynamic Forms
 - Student Care Management (Grievance Redressal System)
 - Hostel Management & Allocation
 - Indent Automation
 - Passport / Visa Expiry reminders for International Students
 - HR Support Services (HRSS)
 - E- Recruitment Process
 - Lecture Video Recording
 - Automation of HR Support Services (HRSS) has been introduced to enable the employees to raise their grievances with HR and enable the HR department to keep track of these tickets till closure.
 - Lecture Video Recording: This is a new initiative to store video lectures of classroom. The same is now linked in LMS for students review.
 - Excel Tinkering Lab provides learning by doing in the school of engineering in the departments of CSE, ECE, ME and EEE
 - Automated Feedback System has also been introduced
- 7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year (in the context of innovations and best practices)
- a. Conducted Energy Audit
 - b. Solar Power Generation of 1 MW
 - c. Solar Street Lights are planned to be installed in phased manner.
 - d. Biodegradable, biomedical hazardous material is collection and disposed off through outsourced agency. Containers provided are as per standard norms.
- 7.3 Give two Best Practices of the institution
1. External Audit of Examinations
 2. University Education management Information System (SUEMIS)
- Details provided as **Annexure 5 & 6**.
- 7.4 Contribution to environmental awareness / protection
- a. Energy Audit conducted
 - b. Smart elevators are provided
 - c. LCD Monitors are used
 - d. Solar Powered Lighting
 - e. Sensor based power switches have been introduced as a pilot project
 - f. Social and environmental programmes are conducted regularly
 - g. More than 600 trees planted in the campus

7.5 Whether environmental audit was conducted? Yes ☒ No ☐

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

The SWOT analysis of the Institution is place in box below:

Strengths

Unity in Diversity:

- The University has global student community from all states of India and 56+ countries
- The University has 90+ global academic partnerships for fostering Global Citizenship.

Global Education:

- Learner centric approach: The curriculum is robust and in-line with the requirements of industry and society.
- Quality Research output, well placed Teaching- Learning system, Vibrant Campus Life, Strong Mentor- Mentee Relationship.
- Experiential Learning/ Taking learning beyond a fixed curriculum
- Well-developed infrastructure and facilities for holistic development of the students.
- State of art infrastructure for fostering all round development of students and creating a stimulating environment for all the stake-holders.
- Experiential Pedagogy: Learning by doing approach is followed along with speakers from cross-section of the society are sharing their insight.
- Faculties are encouraged for research and consultancy and share their experience in classrooms.

Holistic Development:

- All round development of the students in the classroom and beyond classrooms through various curricular and extra-curricular activities.

Weakness

- Managing Diversity and fulfilling the customized requirements of the various students.

Opportunities

- Attracting more students from developing and developed countries as India and Sharda in particular is centre of attraction.
- Scope in the area of Skill Development.
- Scope of introducing industry relevant professional courses in varied domains.

- Increased potential for industry-academia interface
- Attract funding from the Government and industry for research, consultancies and projects.
- Outreach activities.

Threats

- Global Economic crises and slow-down of the industry may hamper placements.
- Global Accreditation processes.

8. Plans of institution for next year

The Action Plan for 2017-18 is attached as ***Annexure 7***

Prof V P S Arora

Coordinator, IQAC

Prof Vijay Gupta

Chairperson, IQAC

Action Taken Report (ATR) 2016-17

Annexure 1

Plan of Action		Achievements
I- Curricular Aspect		Action Taken
1.	Revision of curriculum in programs where revision was not carried out during 2015-16.	Curriculum has been revised in all Schools save those programs which are Council driven (MBBS, BDS, etc). The revisions are approved by the Academic Council and implemented
2.	Identification of Basket of course by each School for students under the "CBCS" initiative of the University.	Basket of courses is identified by Schools for students under the "CBCS" initiative of the University and Offered in all Schools except in Council driven courses like Medical, Dental, Nursing and Pharmacy.
3.	Introduce semester system in all programs, save programs where regulatory authorities do not permit for.	Semester system is introduced in all programs in the University except in School of Allied Health Sciences (to be introduced in 2017-18) and Council driven programs
4.	Conduct Academic Audit in all Schools periodically.	Academic Audits are conducted periodically including external audit of examinations.
5.	Initiate the process of obtaining systematic feedback from students and alumni on quality of the programs, courses as well as teachers.	Feedback from students is obtained on a semester basis. Feedback from immediate alumni is also obtained. Feedback was obtained online.

1.	Vigorous efforts are to be made through counselling for enhancing the proportion of girl students in the total intake.	The University follows the policy of additional 5% scholarship to the girl child. The percentage of girl students in total intake has already risen up to 37%
2.	Initiate extra tutorial classes for slow learning students in difficult courses.	The slow learning students are identified based on the result analysis carried out during /after each term. They are tutored by teachers to help them pace up with the class
3.	Offer remedial courses for the students based on	Remedial English is offered to students who are found to be weak in

	feedback at the time of admission (in counselling) as well as background of the student.	language expression during the time of interview. Based on their level of English, they are suggested remedial English courses varying from duration of 3 -6 months. Students admitted under the special care category are provided these classes free of cost. The classes are held 5 days a week for an hour after routine classes.
4.	Increase the number of case studies industrial visits, workshop, group discussions and lectures by guest faculty etc, supplement face to face teaching learning.	With a view to make learning experiential, every department hosts at least 4 events every month. The number of events significantly rose in 2016-17.
5.	Initiate recruitment drive to appoint regular faculty in various schools.	Recruitment drives are regularly conducted, to recruit quality teacher on various domain.
6.	Ensure computerization of students attendance, students feedback, lecture plan and other activities related to teaching learning system.	The University has fully automated software, PeopleSoft developed by Oracle Inc. The University has a fully functional app (V attendance) which records and tracks students' attendance. For students absenting themselves for more than two working days, text messages are sent to parents informing them about their ward's absence. Students' feedback is also recorded electronically by Dean Academics office. Students can access study materials, instructional plans and all other course related documents from an online learning management system (LMS)
7.	Conduct analysis of results vis-à-vis comments of external experts on various steps related to evaluation	Result analysis is conducted at the end of every term. The ratio of the continuous assessment and the end term result is also computed. The end term evaluation is duly audited by external experts
III- Research, Consultancy and Extension		Action Taken
	Make provision for seed grant for research	Seed money for minor research Projects (Two Years) is provided through Notification No. SU/Ree./Notification/2017/346. 10

1		projects will be selected by the research committee of the University.
2.	Conduct workshops to acquaint and motivate faculty, submit research projects to external agencies like DBT, CSIR, DST, ICSSR as well as corporate houses.	Various Schools of Sharda University regularly organize Special Lectures/Seminars to facilitate the faculty members and research scholars.
3.	Conduct faculty development programme on research methodology for faculty members.	Schools of University conducted faculty development programs on research methodology
4.	Strengthen linkages with industry with the objective of research grant and consultancy.	School of Engineering and Technology (SET), Sharda University has organized '2nd Industry - Academia Meet' on Friday 21th April 2017 in which company personnel of various industries were invited for expert interaction with faculty to discuss the expectations of the industry from the academia in order to bridge the gap between Industry & academia.
5.	Recruit a reputed scientist as full time Dean (Research).	An accomplished Professor (office order SU/Reg./order/I 2017/ 451), has been appointed as Dean, Research
6.	Each school must organize at least one international and two national Conference/ Seminar/ Workshop/ Summit.	A good number of National and International Conference/ Seminars/ workshops/ symposium have been organised in the University.
7.	Initiate the process of establishing innovation center in the University.	Initiated Xcelator (incubator) centre.
8.	Motivate and incentivize faculty to at least publish two papers in Scopus Indexed Journals.	To motivate and incentivize faculty to publish papers in Scopus Indexed Journals Sharda University, a provision has been made and notified (SU/Ree./Notification/2017 / 346).
9.	Reform consultancy policy to promote faculty who undertakes consultancy projects.	The Consultancy policy has been revisited.
10.	Incentivize faculty for filling patents worth commercialization.	An incentive scheme for faculty for filing patents has been approved and notified (SU/Ree./Notification/2017/346)

1.	Student’s amenities activity center to be made operational.	The student amenities centre is in the final/ completion stage. Efforts are being made to make it operational as soon as possible. There are various amenity activity centers like gymnasium, departmental store, Apple service center, auditoriums, food outlets and playgrounds.
2.	Undertake the steps to automate most of the activities of the Library.	Library systems have been automated and upgraded for latest features
3.	Implement IT services management policy.	University has expanded Internet services in academic area & hostels with high security and speed. In the campus Internet over Wi-Fi is available to authorized recipients (student faculty & staff) under strict “AAA’ authentication system “Uni- Box-500” Supplied by Wi-Fi soft. The amount of bandwidth delivered from ISP’s are 1 Gbps and 465 Mbps respectively. Wi-Fi Access point has been upgraded with the latest version which includes 802.11 ac wave-1 & wave -2 with the backward compatibility of 802.11 b.g.n .700 access points being used to facilitate academic area & hostels.
4.	Expand the domains activity of People Soft ERP.	PeopleSoft ERP system of the University is upgraded to latest version 9.2 for future preparedness. Strong emphasis on automation and digitisation of systems has led to solutions like Virtual Attendance, eLearning/LMS, Library system, HR Support System, Hostel Automation, Dynamic Quality Forms, Passport/Visa reminder utility, Automated Question paper system etc. thereby reducing turnaround time and bringing overall operational efficiency.

5.	Undertake plantation activities in the campus.	More than 600 trees have been planted in the campus during this year.
6.	Conduct green and energy audit of the campus.	With regard to energy audit report maintenance of all the transformers, substation equipments and DG sets is done periodically. Suitable capacities LED are being used in place of normal lights. Automation of campus lights has been completed and the automation work of submersible pump and RO pump is going on in fullswing. 1 MW roof top solar power plant has been installed and solar generation has been started.
7.	Rural and urban health centres to be made better functional.	<p>Rural Health Centre: Various camps have been organized at the center as well as at the field practice area. Three more villages, Maycha, Ghangola and Patlakheda have been added as field practise areas. Out-reach clinics are organised twice a week at Maycha illage. Doctors from various specialties of Sharda Hospital visit RHTC Panchayatan. The Psychiatric social workers visit the center on Tuesday and Saturday and provide service to community people. The Physiotherapy clinic is currently running at the centers providing rehabilitative services to the population residing in the catchment areas. A Chaupal OPD has been started in Panchayatan. Field posting of MBBS students along with Nursing and Physiotherapy students was undertaken to sensitized people of the area about community health.</p> <p>Urban Health Centre: Responsibilities of health workers have been identified. Various research activities such as <i>Vision screening</i>: Capacity building workshop for teachers (Banghel area) for school children, vision screening of school children in secondary schools in outreach areas, PSBH (problem solving for better health) have</p>

		<p>initiated in schools.</p> <p><i>Telemedicine</i> unit started for providing specialist consultation to the needy patients without extra charge. Involvement of psychiatric social workers (PSW) in the field on every Wednesday and Friday has been started. Two new areas (Gheza & Salarpur) have been identified and mapped. Outreach clinics started in urban slum Gheza in collaboration with a NGO “Pragyavartan”.</p> <p>Initiatives have been taken to support in national level programs both at RHTC and UTHC. Best Practice I
External Audit of Examinations

Annexure 5

Best Practice – I	
Objective of the Practice:	The University values maintaining high academic standards, the objective of the external audit is to make sure that as a private University, our standards are at par with other reputed Universities.
The Context	As an autonomous University, there is always a perceived threat that the academic experience of the students may deteriorate if the University is not very vigilant. The University uses a model where along with the full academic autonomy percolating down even to the level of individual teachers, a full academic audit is conducted every year in which external auditors are appointed to each department who review the previous term and make recommendations for corrective actions so that the academic experience of a student is maintained at an acceptable level (Rubric & Student Feedback). This model of external audit has produced excellent results.
The Practice	<ol style="list-style-type: none"> Two to four senior faculty members from reputed University are invited to be auditors of a department. The following records are made available to them <ul style="list-style-type: none"> Syllabi of various courses taught in the department for that term. Teaching plan for these courses. Examination Papers. Model Solution. All answer books for the end term examination. The auditors select courses in the area of their expertise and report: <ul style="list-style-type: none"> On the suitability of the syllabus. On the suitability of the teaching plan On the examination papers as to <ol style="list-style-type: none"> coverage of syllabus suitability of questions as to descriptive/ analytical difficulty of the questions Correctness of the model solutions. Auditors to examine whether the evaluation is proper or not., check a sample of \sqrt{n} (where “n” is the total number of answer books) The report of these is filed with examination office where the Controller of Examination and the Dean Academic Affairs examine the same and take corrective action as warranted. A consolidated report is presented to the Vice- Chancellor. The report is discussed in the Advisory Council, and corrective action, is recommended. These are then discussed in Academic Council

Evidence of Success	The incorporation of the model improved the evaluation practices. Over last three years, the errors in evaluation have decreased dramatically. We have received feedback from auditors on the improved quality of question papers being prepared by external examiners. To further strengthen the examination system, it is planned to move to automated question paper generation system (SAQPGS) from banks of pre-moderated and approved questions.

Best Practice II
Sharda University Education Management Information System (SUEMIS)

Annexure 6

Best Practice – II	
Objectives of the practice:	<ul style="list-style-type: none"> • To have a state of the art information management system. • To have a user friendly access to information related to University activities • To build an efficient feedback and appraisal system • To provide analytical support to administrative offices for proper utilisation of resources
The Context	<p>Information management system is at the core of effective administration. University is committed to developing and supporting Information Technology solutions that enable the campus community to excel in teaching, learning, research, scholarship, and public service. The University has various units like Admission Cell, Examination cell, Finance department, IT and Infrastructure, having large amount of information, which is to be stacked in a manner which facilitates quick analysis and drawing of conclusions. Student- faculty interaction is also developed by having IT solutions in place. Prospective students of University should have hassle free information available to them and easy application processes. Keeping these areas in mind, the University has placed widely acknowledged IT solutions for the aid to the staff and students of the University under a common blanket of SUEMIS</p>
The Practice	<p>The University has employed various software solutions to ease the workflow of University process. Following facilities are currently used by the University:</p> <p>PeopleSoft: Oracle's PeopleSoft applications have been procured by University to meet its information management requirements. It was employed as an upgrade to earlier software solution, SIM. PeopleSoft is used to manage and analyze information related to student admissions, fees, dues, registrations, human resource management, and finance. Further the University employees can access and perform the following list of services by login:</p> <ul style="list-style-type: none"> • On duty application • On duty history • Absence request • Absence request history • Absence balance • Swipe time and status • Can view and edit personal information summary (home and mailing address, phone no., email ID, emergency contact, marital status, name change)

- View pay slip
- IT tax declaration
- Change password The list of services accessible to students on login is as below:
- Account Details - Student's information like name, school name, etc.
- Dues - Students can check their dues and get an update about the college fee details.
- Online Fee Payment - Students can pay their Fee online.
- Exam Results - Students can check their exam results.
- Assignments - Students can view their respective class assignments.

Learning Management System (SULMS): SULMS is a learning platform designed to provide educators, administrators and learners with a single robust, secure and integrated system to create personalised learning environments. SULMS provides a flexible tool-set to support both, blended learning with 100% online courses and platform for student faculty interaction. This software solution provides facility for faculty to upload class notes, assignments, and quizzes for easy sharing with students. Students also have information about important notifications for students along with course related information. LMS is also equipped with feedback system for students to register their feedback about course studied by them. SULMS is web-based and so can be accessed from anywhere in the world. With a default mobile-compatible interface and cross-browser compatibility, content on the SULMS platform is easily accessible and consistent across different web browsers and devices.

LIBSYS7: University has a modernized Learning Resource center which has Libsys7 library management solutions for comprehensive management of library resources. Libsys7 leverages the power of internet to perform combined search on Z39.50, SRU/SRW and Libsys databases. User has the freedom to choose the servers to be included in the search.

E-Resources: University subscribes regularly to e-Resources to provide access to faculty and students devoted to research with latest publications. University LRC has subscription to Springer, IEEE, ASCE, ASME, K² nimbus, DELNET, Manupatra, AIR Manuals, Westlaw India Services, EBSCO Management e-books collection, Medline Online Database and E- Journals EBSCO Business Source.

Campus Lynx: This software is used to collect student attendance. It enables students to access their attendance status and notifies the ones with short attendance. The software also enables the following:

	<ul style="list-style-type: none"> • Faculty marks the presence / absence of students in each theory/ lab classes. • Report of the attendance is mailed to his/her login periodically and SMS is also sent to the pre-registered mobile number. • List of students falling short of attendance is also generated and the information (if debarred) is sent to the concerned. A student may opt for his / her choice of courses and apply for the examination. The result of the student is published online. A student may check his/ her result by logging in through his id/ password and check the result. In addition a student may submit his/ her application to the office on mail. (mail to VC, Registrar, CoE, Dean etc.) It also acts as an Examination Management Software. The following illustrates further: <ul style="list-style-type: none"> • The Schedule of the Examination is generated on the software and the student is informed about the schedule of his/ her papers. • The copy of the Admit Card is also available on the login. • The seating plan detail (room no. and position in the room) is also available on the login. • The Admit Card / Verification Card etc. containing photograph and signature of the student and the date/ time of the courses opted by the student is also generated by the software. • The CA and MTE marks, once posted by the teacher are visible to the student through the self service. • The final result (Grade Report) is also available on the login <p>v-attendance: v -attendance utilizes an innovative mobile App to take, track and manage attendance across different subject taught in the University. v- attendance also provides a cloud hosted portal to generate various reports and data analytics regarding the attendance across University and provides a real-time tracking of attendance. , v- attendance provides multiple roles such as Administration, Dean, HoD, Faculty and Student. There is a separate version of v -attendance for students to enable them to track their subject attendance throughout the semester.</p> <p>Mentor-Mentee Platform: The Mentor-Mentee platform provides a cloud hosted portal to manage various mentorship activities across the various schools. The purpose of the platform is to encourage interaction between Mentor and Mentee in a planned and scheduled manner, which can be tracked, monitored and evaluated. Mentor-Mentee platform provides options to set custom KPI's and outcomes for the mentorship program.</p>
--	---

Evidence of Success	<p>The CA and MTE marks, once posted by the teacher are visible to the student through the self service. The final result (Grade Report) is also available on the login. With the employment of above practices and backed by state of the art IT infrastructure of campus, administration of the University is being run smoothly and efficiently. Students also complete their projects and assignments on time by using these facilities, besides tapping e-learning materials through MOOCs/NPTEL etc. v-attendance was launched in August 2016, and has recorded attendance records. v-attendance helped greatly simplify attendance tracking, reporting and distribution.</p>
Problems Encountered and Resources Required	<p>The services are heavily dependent on internet facility of the University and require more server space. University constantly upgrades its servers to meet the increased requirements. Electrical backup is also required. University has a provision of three power generators. All the server and computer facility are backed with UPS. University conducts regular training programs for teaching and non-teaching staff. Students are trained by their mentors/academic counsellors about the software and the various services available to them.</p>
