Sharda University

PRASHANT GUPTA
Executive Director
Sharda Group of Institutions

Prof. G. R. C. Reddy
Vice-Chancellor
Sharda University

Warm greetings to all my colleagues, staff, students and your family members.

A new year always ushers in a sense of renewal-renewal of purpose and commitment to excellence in teaching, learning, research and service to our community. With this comes the firm resolution to achieve desired results & meet deliverables. Thus, our new year resolution for 2019 is to ensure the highest academic and administrative quality at the University.

In the light of this, I wish all the Departments to review the progress made in the last year and conduct the SWOC analysis and plan the next phase of academic in the campus based on this. I am sure this will make us to progress in the right direction.

***May this New Year bring us more success and happiness.
Thank You.***

NEW YEAR MESSAGES

SCHOOL OF HUMANITIES & SOCIAL SCIENCES

Dear Students,

We have stepped into yet another New Year. This is an opportunity for us, teachers, to look back, learn from our mistakes and rededicate ourselves in the service of the society in general, and contribute in overall grooming of our student community in particular.

Teaching is a noble profession as we are involved in the process of educating, training and skilling future generation. In our culture, 'NishkaamSewa' is the ideal that we are supposed to follow. We are, however, doing this service with a cost to the students. In the words of Chancellor, it rests upon us a greater responsibility to perform this onerous task with greater dedication and with focus on the outcomes.

Let us take inspiration from glorious past of India when places like Nalanda, Patliputra, Saranath, Takshila, Ujjayani, Vikramshila, Vallabhi were well known seats of higher education. In the words of our Principal Advisor, "Can we bring back the same glory?" We all have the capacity to work towards this goal. Though the task is arduous and journey is long, we can take a vow to move in this direction.

On students' front, there is a need to treat them with fairness, compassion and affection. They can be motivated for learning when they are explained the usefulness of what they are engaged in. If they are faced with psychological threats, they will not be motivated to learn. When they are asked to work in groups, their motivation level improves as they are able to contribute to the group activity. When they are self-initiated internally, their learning is more. Needless to say, that we have to foster caring relationship among student community, administrative community and teacher's community on Campus. As faculty, we have to be accessible to our students as freely as our Vice Chancellor is to us.

I believe in our students' capabilities and potential. Students can do everything and anything if they are determined to do so. In the words of Swami Vivekanand, "Man is like an infinite spring, coiled up in a small box, and that spring is trying to unfold itself; and all social phenomena that we see are the result of this trying to unfold." Let us believe in this.

Let us all work together in this unending endeavour to achieve excellence in what we do for our students in this year and years to come.

Mr. Pramod Kumar Mitra
Dean, SHSS

SCHOOL OF LAW

Dear Students,

Wishing you and your family members a Very Happy and Prosperous New Year 2019! New Year ushers in festivities and hope for a bright future. Some of you would have made New Year resolutions of devoting more time for studying therefore improving the understanding the basic concepts. Indian economy is the world's fastest growing economy and is poised to become 5-7 trillion dollar economy by 2025. This would necessarily require enactment of new legislation and setting up of tribunals to improve ease of doing business and also for speedy disposal of commercial disputes. This would open up plethora of opportunities for the budding legal professionals.

Law is an instrument of change and in order to ensure an egalitarian society wherein the Preambular declarations of Justice, Liberty, Equality and Fraternity are not merely declarations, we need to embark upon community connect programmes and organise awareness programmes in our neighbourhood villages with greater enthusiasm in the year 2019.

I am confident that by your determination and hard work you shall succeed in all your endeavours.

Prof. Pradeep Kulshrestha
Dean, SOL

Prof. Mukesh Chaturvedi
Dean, SBS

SCHOOL OF BUSINESS STUDIES

Dear Students,

This is Christmas time. As everyone knows, Christmas is the birthday of Lord Jesus. He spent his entire life to provide us the exact message of humankind. Therefore, I believe, our New Year resolution should be to spread love, happiness, and humanity everywhere.

With Greetings and Best Wishes for a very Happy 2019.

Prof. Rainu Gupta
Dean, SOE

SCHOOL OF EDUCATION

Dear Students,

I wish that the New Year brings new hopes and new opportunities. Learn from your mistakes, make new resolutions, work hard and accomplish your goals with more energy and zeal for future. Successful are those who never give up to difficult situations and problems. You, my student, have unmatched potential to do things that are impossible... Wish you a focussed and dedicated Happy New Year. This new year make full use of your potential and talent.

Prof. Pauline Sharmila
Dean, SNSR

SCHOOL OF NURSING SCIENCES AND RESEARCH

Dear Students,

As we are ushering in to the New Year 2019, let us invoke God's abundant blessings to reach zenith in whatever position or situation we are placed with, and seek His guidance to exhibit our excellence in all our walks of life.

May you explore new opportunities, new vistas, new aspirations, new promises, and rekindled hopes. May you get exceptional reward. May the God Almighty sustain you all with Peace and Prosperity, Health and Wealth, Knowledge and Wisdom and keep you under His Protective Wings from Dawn to Dusk of the New Year.

SCHOOL OF CREATIVE ART, DESIGN AND MEDIA STUDIES

Dear Students,

The media and entertainment is one of the fast growing sectors of the Indian economy. The traditional education in various streams of journalism and mass communication is undergoing a radical change as the needs and requirements of the industry are rapidly changing. The nature of teaching and training needs a lot of innovations and so is the case with learning process.

In any professional programme the role of a teacher if more of a facilitator and learning largely depends on the motivation on the learners. Someone has said the as a professor my job is not to make you learn but to take you to the fountainhead of knowledge and rest is your choice. That's how he differentiated the school and university education.

Writing skills and strong knowledge base are the key and then comes the question of creating the content for various media – print, television, radio and digital. In this age of convergence a learner needs to be multi skilled.

The key is to be inquisitive, curious and there has to be a hunger for the knowledge. Education is imparting of knowledge and training is imparting of skills. Education is knowledge and training is a craft. Without knowledge craft is not enough as it is just a delivery mechanism of the content. All the students of journalism and mass communication must excel in both.

In nutshell, read and read a lot. Write and write a lot. Once you are equipped with intellectual and professional skills, the sky is the limit for your success.

Best wishes for the New Year. The future belongs to creative arts, so start sharpening your intellectual skills to be creative in the New Year with more motivation and vigour.

Prof. Subhash Dhuliya
Dean, SCADMS

SCHOOL OF ALLIED HEALTH SCIENCES

Dear Students,

During the year, we saw our hard work result in the achievement of several important milestones for the School/ University.

As a Teacher, I am confident that we are in the right direction: direction that power the future, providing knowledge that are essential to support the development. Your prospect as a student is bright. You have strong capabilities and a good position in the changing healthcare environment.

I would like to congratulate each and every one of you for your hard work, passion, and the part that you have played last year . I look forward to your continued efforts.

Let me also take this opportunity to wish you and your families a very happy and prosperous Year 2019!!

Dr. Dalip K Kakru
Dean, SASH

Prof. Parmanand
Dean, SET

SCHOOL OF ENGINEERING & TECHNOLOGY

Dear Students,

At the onset I would like to wish you a great 2019 and its time for us to look back at 2018 to learn and get motivation from the wonderful gifts life has bestowed us in the year gone back.

I would like to suggest that each of us set goals for us to achieve in 2019, goals that would reflect success in our technical and professional arena and help us scale our knowledge. The world around us is evolving very rapidly with technology becoming obsolete before active adoption, we need to be agile in our mind set to adopt, learn and practice upcoming learning areas without any fear and prejudice.

It is always good to know of success stories from people around us to keep us motivated on our path of success. SET has seen a few that can bring cheer to Sharda University family and set milestones for others to achieve. I am happy to share that **Mr. Sumit Kumar Singh** (Batch 2010-2014), of B.Tech Biotechnology Engineering Department School of Engineering and Technology has started his company "Diosiv Healthy Foods Pvt.Ltd.," at Ghaziabad. Another success story is of **Mr. Kargesh Kumar**, B.Tech Biotechnology Engineering Department, School of Engineering and Technology, who has started a Firm "Prominent Scientific", which deals in Analytical chemicals and molecular biology products & services, serving scientists across the country. I wish these entrepreneurs success in their enterprise.

From the students still pursuing their education with SET, final year students from B.Tech Computer Science Engineering **Mr. Rohit** and **Mr. Vishwajeet**, are working on a web application project named as onlineao.com, an online business dictionary.

This project is in collaboration with Larch Soft Pvt Ltd. Their work comprises of Web Designing & Development, Android Application Development, SEO, SEM, e-Commerce Solution. I appreciate their efforts and wish the team good luck with their endeavours.

All these and so many other success stories have few things in common, which can guide us in our quest for learning and success. Hard work, determination and agility are key to succeed today in all spheres of life.

SET has been able to provide the platform to all the budding technocrats to succeed by continuously updating courses, incorporating best practices from industry and imbibe them in students to make them industry ready.

In the New year as well, we have many academic events planned for the skill enrichment of students. Participation in these events will surely make students more skilled and employable.

I wish that the year 2019 brings knowledge, skills and curiosity to learn to my students so that SET must see profound hike in placements/enterprises.

Happy New Year!

★ Happy New Year 2019 ★
