## SECTION B: Event report and reflection

### 1. Event Objectives-

Quality education meaning is heterogeneous and multi-dimensional with respect to conceptualization and assessment. It cannot be assessed with any one perspective. For delivery of quality education, it is important to know and quantify the current quality standards. Higher educational institutes are required to have more effective delivery and assessment methods to achieve educational outcomes. However, processes involved with higher education are more complex as compared to industry. Higher education institutes with varying students and stakeholders are facing huge challenges to become more accountable and responsive to student's needs, and become more efficient, effective and learner-centric.

Quality in higher education is a priority issue today for research and analysis.

The core idea behind this FDP is to make the learning experience that is based on individual student needs, abilities and learning abilities. It demonstrates and emphasizes the use of technologies to analyze student data and performance and further use it for adaptive teaching methods that work best for each student. This enables a level of customized education that is not prevalent with the previous systems.

Hence, this FDP aims for academic excellence with the existing University systems & processes. The objective is to ensure how we can compete with our own previous performance, setting new benchmarks for higher achievements, periodically analyzing results and taking further actions. The core idea is to provide

2. Event Description: The Faculty Development Program (FDP) on "Quality Education and University System & Processes" is designed to equip educators, administrators, and academic leaders with the knowledge and skills necessary to enhance the quality of education and improve university systems and processes. This comprehensive program aims to foster a deeper understanding of the key components that contribute to an effective and efficient educational institution, focusing on the latest trends, best practices, and innovative approaches in higher education.

**What suggestions do you have for improving future FDPs?**

None

No suggestions

Nothing

Such FDPs should be conducted every six months.

Can bring for industrial experiences people

Nothing.... everything was good

Hands on new technology

Duration should be less not more than 5 days

FDPs should be more flexible

Learn technology

Relevant speakers

Duration should be less not more than 5days

Very good

No suggestion

Time duration

One one session per day , it will be feasible to attend.

Good session

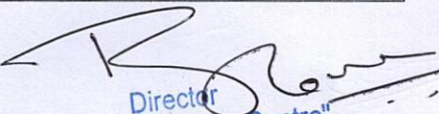

Informative

No suggestions

At the last day of FDP new faculties should be given a chance to showcase their work for 5 minutes each, which will help them to find suitable collaboration within the University.

More FDP will conducted with quiz and assignments.

None as of now

It should not be made compulsory. If the content and delivery is good, attendance will be there.  
Further I request for proper time arrangement should be made for faculties so that faculties do not face the challenge of doing multiple tasks as well as attending the FDP.

None. It was a very well organised and conducted FDP.

No comments

Very good sessions

FDP can be compressed to 6 days in place of 8 days

8days full time FDP was very much hectic.

No.of days could have been reduced

Kindly limit days of program

The speaker can be more interactive and open for discussions and seperate time should be allotted for question and answers.

Overall it was well organized. Thank you.

Add some more engaging sessions using quiz, questioner, etc.

Regarding the Gen AI they only explain the prompt engg part which is very basic I thought that they will take session on use of gen ai like several model and effective use

More Hands on Sessions to engage audience must be the part of the program

An excellent organized FDP by TLC, SU.

Must have few sessions for handling students in the class.

..

Keep up the good work

More External speakers must be invited and it must be plan May -June because in July faculty have pressure to start new sessions .

Time period should 18 hours or 3 days

Keep conducting such FDPS in future as well.

More workshops required for few days with school wise faculty members

Repetition should be avoided specially in outcomes based education

Sessions could be delivered in English. Would be effective and its my perception

It should be conducted frequently
