Sharda University

Sharda University, established in 2009, accredited with A+ grade by the National Assessment and Accreditation Council (NAAC) and 86th Rank by NIRF, has become one of the leading centers of education, research and innovation in Delhi NCR region. Established through an act of State Legislature of Uttar Pradesh (14 of 2009), Sharda University offers more than 130 UGC recognized degrees in programme like Engineering, Management, Medical, Dental, Integrated Law, Architecture, Design, Journalism & Mass Communication, Computer Applications, Basic Sciences, Nursing, Biotechnology, Food & technology, Pharmacy, Physiotherapy, Paramedical, Education, Languages, Animation and Visual Arts. The University is truly global University in India with students from 95+ countries, and academic partnerships with more than 250+ universities across the world – the USA, Canada, the UK, Russia, etc. Gender is one of the key areas of research in Sharda University highlighting to resolve different aspects of gender inequalities and discrimination.

Students from 95+ countries

Sharda University promotes the gender equality amongst its employees and the students. The University maintains a good ratio of males and females in respect of students (58:42), for teachers 53:47 and for non- teaching staff, 60:40. To ensure the safe and secure campus for female students and employees several steps are implemented. There are good number of CCTV cameras deployed at strategic points to record the movements regularly which is further monitored by security personnel team in the central control room. To support the safety,

especially for women, security officials and the warden staff in the hostels are sensitized for reporting and taking care of any input from control room. There is 24x7 vigil on unauthorized persons and suspicious conduct inside the campus through CCTV and security staff. There is an Internal Complaint Committee (ICC) which undertakes measures for strengthening the safety and security of women on the campus and also resolve the specific cases of complaints, if any, from female students/employees regarding sexual harassment. ICC also participates in orientation program and spreads the awareness on gender related issues through seminars, group discussions, debates. There are courses in the schools of the University which have gender related issues. Every school organizes events on gender equality and gender sensitization among students

Research on gender equality

There is good amount of research activities and record of published work by faculty and students. This progress is because of the research infrastructure provided by the University to facilitate the faculty for experimentation and studies. The male or the female employees are given equal opportunities to use the research facilities. Particularly, the University has good number of female employees and faculty members who have successfully maintained quality publications. The amount of citation further reflects the quality of research in the University.

Proportion of female authors – The female teaching staff constitute approx. fifty percent of the total teaching staff in the University. Hence the publication is also higher by female faculty members working in various schools across the University. Such research published by faculty in sharda is cited by scientists in their studies.

The Role of Artificial Intelligence in the Purchasing Behavior of Consumers in India

ABSTRACT: In order to maximise the use of billions of customer records, AI-enabled customer journey analytics finds patterns in the data, generates very precise future forecasts, and highlights the key elements and possible roadblocks. In addition to helping businesses enhance customer loyalty and revenues, improve operational efficiency, improve decision-making, and deliver more relevant products and services, AI also helps businesses reduce their customer turnover rate.

Since AI significantly contributed to redefining customer service in recent years, studies in this area have grown in popularity. A few research do, however, point out the important causes behind this evolution in the concept of customer experience. In order to address this gap in the academic literature, this study focuses on how a personalised approach to customer demands, improved service quality, and seamless service abilities acquired by AI have been able to give a better experience for the consumers.

KEYWORDS: Artificial Intelligence, Purchasing Behavior, Purchasing behavior of Consumers

1. INTRODUCTION

The growth of digital transformation in recent years has caused a significant shift in the corporate paradigm. Artificial intelligence (AI), which enables better data extraction, investigation, and utilisation, leading to more accurate forecasts and performance in the market environment, has had a huge impact on the present technological revolution. Artificial intelligence is a branch of computer science that aims to build intelligent computers that can do jobs that need human intellect. Another definition of artificial intelligence is the process of "developing systems that are endowed with the intellectual processes characteristic of humans, such as the ability to reason, discern meaning, generalise, or learn from prior experience." Artificial intelligence has been increasingly used in marketing recently to increase consumer value through deep learning. As market competition has grown, customer satisfaction has developed into the cornerstone of every business strategy.

According to the definition, customer experience is "the sum of all customer encounters with the company, based on all customer contacts and views about the company." 95% of all client interactions are expected to take place through channels supported by artificial intelligence by 2025. By making the consumer experience more friendly, useful, and engaging, artificial intelligence helps to increase customer satisfaction and loyalty.

2. LITERATURE REVIEW

In order to further the theoretical discussion in consumer research, Bag S, Srivastava G, Kumari S, et al.2022 used primary data gathered from consumers in a developing nation (India) to conduct a study and test their theoretical model. The results of the study demonstrate that using AI technology has a favourable link with user engagement and conversion, which is further established by the study's empirical testing.

The empirical study on the impact of artificial intelligence on impulsive purchasing decisions was carried out by Jain S. and Gandi A. in 2021 using an online poll of Indian consumers. Multiple regression analysis and factor analysis were used to analyse the data that was obtained. The end result demonstrates the relationship between the application of artificial intelligence parameters, such as the duration of the purchase, recommended products, product information, and human interaction, and its impact on impulse purchases. The results showed that all of these parameters, with the

Background The existing World Health Organization (WHO) pneumonia case management guidelines rely on clinical symptoms and signs for identifying, classifying, and treating pneumonia in children up to 5 years old. We aimed to collate an individual patient-level data set from large, high-quality pre-existing studies on pneumonia in children to identify a set of signs and symptoms with greater validity in the diagnosis, prognosis, and possible treatment of childhood pneumonia for the improvement of current pneumonia case management guidelines.

Methods Using data from a published systematic review and expert knowledge, we identified studies meeting our eligibility criteria and invited investigators to share individual-level patient data. We collected data on demographic information, general medical history, and current illness episode, including history, clinical presentation, chest radiograph findings when available, treatment, and outcome. Data were gathered separately from hospital-based and community-based cases. We performed a narrative synthesis to describe the final data set.

Results Forty-one separate data sets were included in the Pneumonia Research Partnership to Assess WHO Recommendations (PREPARE) database, 26 of which were hospital-based and 15 were community-based. The PREPARE database includes 285 839 children with pneumonia (244 323 in the hospital and 41 516 in the community), with detailed descriptions of clinical presentation, clinical progression, and outcome. Of 9185 pneumonia-related deaths, 6836 (74%) occurred in children <1 year of age and 1317 (14%) in children aged 1-2 years. Of the 285 839 episodes, 280 998 occurred in children 0-59 months old, of which 129 584 (46%) were 2-11 months of age and 152 730 (54%) were males.

Leverage Edu: caught between novelty and efficiency

Deepa Kumari and Ritu Srivastava

It was the beginning of October 2021 – the season of humid afternoons and pleasant breezy evenings. Akshay Chaturvedi was deeply engrossed in a discussion on Leverage Edu with his co-founder Rajeev Ganjoo at his Gurugram office in Haryana, India. Chaturvedi found himself in a tricky situation. On the one hand, he was delighted that Leverage Edu had raised equity funds, venture debts and growth capital of over US$10m in the past three years, at a valuation of US$14.9m (Medhi, 2021; Leverage Edu, Traxcn). On the other hand, he felt the pressure of using the funds in the best way possible. Chaturvedi needed to determine Leverage Edu's primary short-term strategy to define how it would develop in the next five years. Competing firms were taking the same steps as his company, and there was a visible surge in the number of students applying to foreign universities. Additionally, there was a threat of forward integration by leading EdTech companies, such as BYJU's and Unacademy, looking to enter the higher education space.

In this regard, Chaturvedi had to decide whether to focus on increasing traffic by targeting Tier II and III cities, increasing the number of universities on the list and partnering with more mentors (Best Country to Study and Work for Indian Students, 2021), or concentrating on building a novel platform that would offer a range of complementary services, including arrangement for visa-related services, accommodation, student loans and other allied services. He could also choose to focus on both strategies simultaneously. He concluded that making a decision was difficult, but that it had to be made quickly, as there was little time at hand. An increasing number of students were vying for admissions, and competitors would soon move a step ahead and change the game forever.

Akshay Chaturvedi

Chaturvedi grew up as part of the Indian bourgeois. His parents insisted that he read English literature classics to improve his language skills. He differentiated himself as a member of the middle class and decided that he would do something related to education for the middle class when he grew up (Chakraborty, 2020):

> If ever there was a problem that I was going to solve, it was to be in education, aimed towards the middle India [...] those who aspire to and successfully transform their children's future (Chakraborty, 2020).

Years later, Chaturvedi, a student at the Indian School of Business (ISB), Hyderabad, where he was also the director of the student board, began to identify business opportunities in higher education. His cause began to see the light of day as he began manifesting his ideas into action. However, he also recognized the challenges of breaking into the higher education market, which he described as "a huge white space, tough to crack and difficult to build solid moats" (Chakraborty, 2020).

Proportion of first-generation female students

Sharda University has 16000+ strength of students in which female students are in good number with a 57:43 ratio. The proportion of first generation female students comes to 1720/2319 = 0.74 reflecting good indication towards girl child education. Since day one in the University students are provided with 24x7 safety, academic and hostel facilities. Digitalization of library facilities makes the services to students fast. Advanced technology and latest IP cameras make the campus safe and productive that female students can concentrate on their academics.

Student access measures-

Sharda University is a co-education institution for male and female students. Particularly, after independence there is much support by the parents and society to educate the girl child. The government system also facilitates the education for girls. Beti bachao, beti padhao types of motivating slogans are now giving results in terms of improved sex ratio and higher education level of woman citizens. Every year a good number of girl students apply across all the programme in University who finally start their studies securing their admissions as per the norms of the University.

Tracking access measures

There is a computerized MIS system to process the applications of admission. Every application is processed by the admission staff and data entered in data base management of the system. Once data entered in the system, it is sorted on several parameters to analyze the trends towards admissions in different courses in the university. The applications received from the national and international candidates are immediately entered in the systems to further mark these to appropriate schools.

The admission team facilitates the candidates at UG, PG or PhD level to understand the course description and career prospective in a particular programme. There are international offices of the University in many countries providing essential information to applicants to facilitate the appropriate decision-making to secure admission in the University. The University has international students from 95+ countries across the globe. The supporting environment, secure campus and dedicated teaching have made the Sharda University the first choice among students not only in the country but also at abroad developing it truly global University.

There is an online portal to provide admission related information on door-step of the applicant. The digital way of transaction further smooths the fees deposit to secure the seat in class and the hostel to start the studies without any hurdle and time loss. The admission portal describes the course, programme, scholarships, process, etc. to facilitate the applicants in finding the essential information. The layout of admission portal on the University website is as follows:
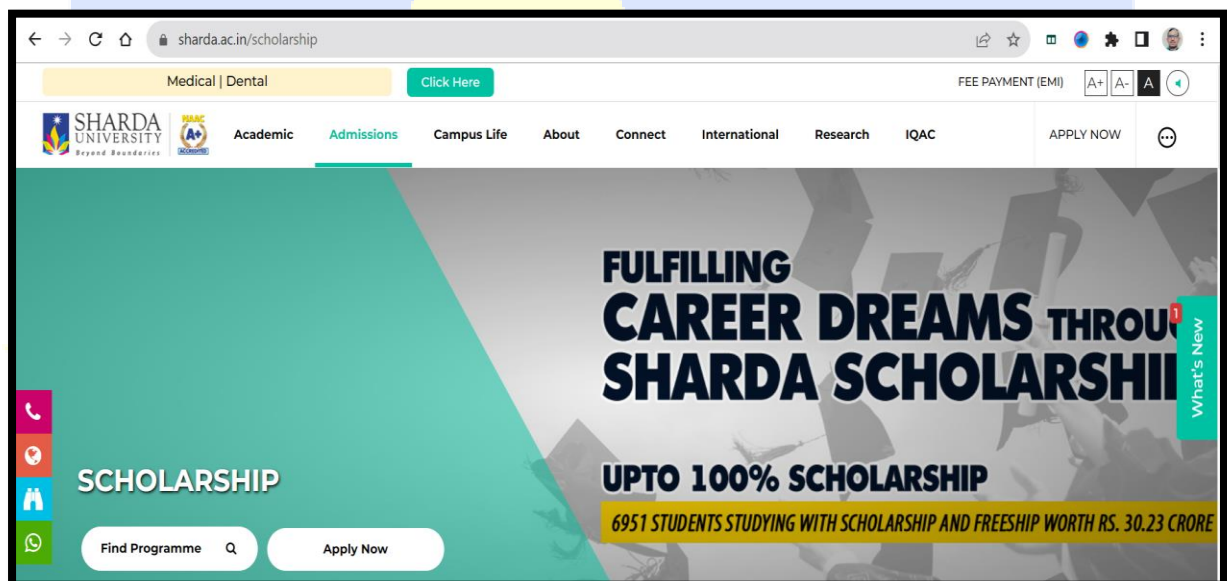

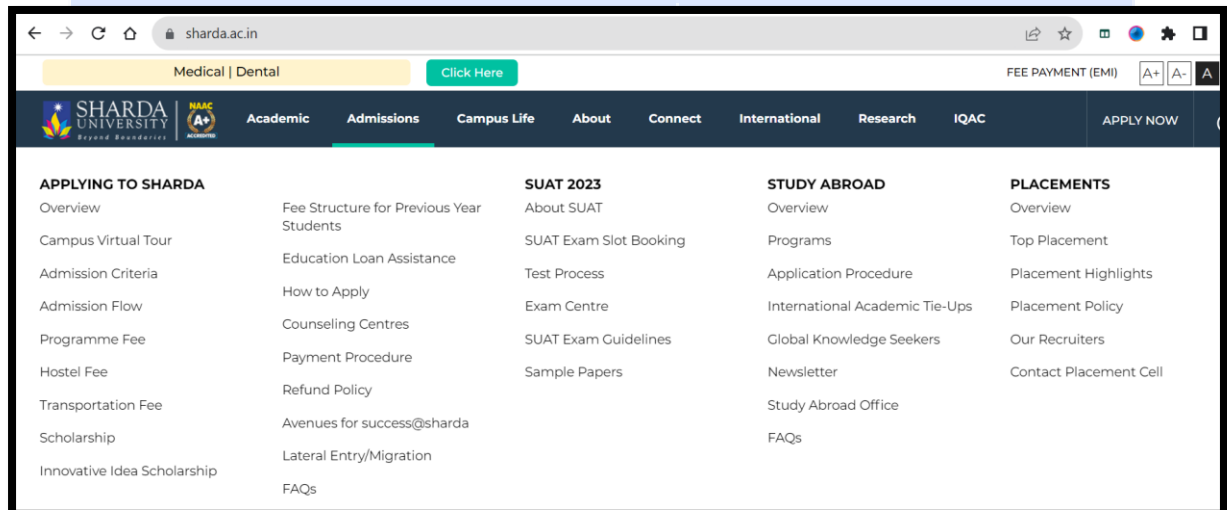

Innovative Idea Scholarship

Sharda University is proud to be a stakeholder in the Hon'ble Prime Minister's vision of self-reliant India. Infact, Sharda University's core ideology is to nurture more job creators than job seekers. We invite UG/PG students with Research & Entrepreneurial mindset to share their StartUp Idea. Besides giving upto 100% Scholarship & Seed Money, Sharda Launchpad Federation will nurture the innovative idea to success. Share your ideas at ideas.scholarship@sharda.ac.in So far, 150 Sharda alumni have become entrepreneurs with business operations in diverse sectors. Sharda Launchpad's mission is well recognised by the Govt. of India and eight of its incubates have been selected to be assisted by INVEST INDIA - National Investment Promotion & Facilitation Agency, Ministry of Commerce and Industry, Government of India.

International Academic Tie-Ups

Policy for women applications for admission

Every application or admission related query is recorded in the system to be attended by the admission officer to assist the applicant and the parents during the admission process. The girls are especially motivated to secure the admission in various programme in the University. The efforts of the admission cell have supported the increment in girls' admission even in the courses where their presence was very low earlier, like mechanical engineering, bio-technology or the solar energy technology. In addition to the admissions, the University also track the progress of the studies of the students to ensure the successful completion of the programme

by the student. The successful completion rate of the studies is also supported by the implementation of new education policy (NEP 2020) by the University which further permits the multiple exit and entries by the student and academic credit bank, especially the girl students will be benefitted through these options. The University maintains a dedicated web-portal for admissions and related queries by the applicant across the world. The University has developed a digital platform– EZONE for handling the data related to various academic operations including the admissions of the students.

Women access schemes and women's application in underrepresented subjects

There is a career counselling cell which facilitates the students to analyze and opt the career option best suited to their abilities and skills. This cell also guides the female students to opt the best career path and motivate them to study in variety of programme. The online portal for mentoring and counselling services made the counselling fast and easy for the students.

Further, it has been observed that girl students mostly inclined towards humanities programme. However, regular counselling and personal guidance in admission cell and regional offices enable the students to make their mind to have admission in technology oriented courses, like mechanical engineering, computer applications, solar energy, etc. In comparison to starting phase of the University now there is good strength of female students in every course/programme. There is no discrimination among boys and girls in admission, examination, evaluation or any other stage of their studies. There is mechanism of prior interaction with subject experts and visit to concerned school so as to facilitate the student and his/her parents to make their decision confidently after discussion with Dean and Professors available in the school. There is separate web portal for the students to keep the records of mentoring to them by the allocated mentor from their school. The name of the portal is – Paramarsh which is given for login to every teacher mentor.

Chancellor's
Message

As the Chancellor of Sharda University, I have both the opportunity to provide forward-looking leadership and to ensure that Sharda becomes a model of excellence in education for the country in the years to come.

If I had to state what differentiates Sharda University, I would without a doubt say that it is how we bring together incredibly diverse groups of students & faculty from across the world to discover a new way of learning. Moreover, Sharda gleans great advantage from its valuable industry network, which equips our students with essential knowledge and skills to excel in today's highly competitive world.

Although we offer over 130+ programmes in a variety of academic disciplines, our goal is your success. All our programmes focus on professional fields with strong current and future prospects to provide a degree that works for you. And, we surround you with a supportive and helpful academic community to encourage your personal growth and success.

I welcome you to be a part of this amazing experience!

Shri Pradeep Kumar Gupta has revamped the way education is imparted in educational institutions across India. He has also established Sharda Hospital in 2005 to provide hi-tech medical care at affordable cost to everyone. Going beyond boundaries, Sharda University established its first overseas campus at Andijan, Uzbekistan.

Shri Gupta is one of the founders of Education Promotion Society for India (EPSI) and also its past President. The then Hon'ble President of India nominated him on the Board of Governors of National Institute of Fashion Technology.

Pro-Chancellor's
Message

When you come to Sharda, you are choosing a university that has been raising the bar of excellence in education since 2009. Behind this success was the experience of almost a decade in managing a large conglomerate of education institutions with infrastructure and education delivery processes benchmarked with the best.

The experiential education that our graduates have received while at Sharda has empowered them to solve real-world challenges. Whether through joining the workforce, continuing on with further studies, launching an entrepreneurial venture, or forging a different path, Sharda's graduates have brought their 'Think and Do' spirit out into the world.

With a reputation of being India's only global university, our passion for the areas of expertise we operate in and our cordial relationship with industry, you can be sure that Sharda will help you find your future.

An investment in higher education is a life-changing decision that will affect your career growth. Whatever programme you choose, we will support you with the very best academic staff and state-of-the-art facilities.

Shri Y.K. Gupta is a renowned educationist, social leader and a visionary industrialist who has traversed a tough road to the position he holds in Sharda University.

Shri Y.K. Gupta has put immense efforts to do pioneering work for his hometown, the city of Taj Mahal. He groomed Agra as a centre of excellence in technical education and provided the students better learning opportunities without any boundaries.

FACULTY WITH EXPOSURE OF
MOST PRESTIGIOUS INSTITUTIONS ACROSS THE GLOBE

Sharda University prides itself on the quality of its teaching, which is reflected in our numerous awards for education excellence. The distinguished faculty have been sourced from prestigious global universities like Stanford University, Harvard University, Cornell University, University of Alberta, John Hopkins University, Ulster University, Stuttgart University among others. The faculty had the privilege of pursuing path-breaking research and teaching at these universities.

In addition to the expertise of our academic teams, students at the University also get the chance to learn from visiting professionals who are well known and respected in their industries and professions. Each year Sharda University welcomes a range of guest speakers who deliver inspirational talks in their respective fields as part of our Guest Lecture series. These free events give students the chance to hear from experts outside of their subject areas and broaden their horizons.

SHARDA UNIVERSITY ALIGNS ITSELF TO NATIONAL EDUCATION POLICY 2020

Prof. (Dr.) Sibaram Khara
Vice-Chancellor, Sharda University

Shri Pradeep Kumar Gupta
Hon'ble Chancellor, Sharda University

Futuristic education policy lays the foundation for a nation's progress. Be it new discoveries, knowledge creation, skillset building, and innovation– the determining factor behind creating future nation builders is good education. In this regard, the National Education Policy (NEP) 2020 is futuristic, augmentative, and ambitious.

Shri PK Gupta, Chancellor, Sharda University is proud of the fact that Sharda is in sync with the vision of the Hon'ble Prime Minister's new education policy where the focus is on building skills and nurturing entrepreneurs who'll drive the change tomorrow. Sharda Launchpad, the StartUp wing of Sharda University has over the last five years been serving as the springboard for students and budding entrepreneurs who are living the dream to make India self-reliant. Sharda Launchpad is approved as business incubator by Ministry of MSME and has collaboration with StartUp Incubation and Innovation Centre, IIT Kanpur for sharing of resources.

In line with NEP, Sharda University offers 130+ UGC recognized future-focused Programme/Plans (including diploma). New age programmes in Stem Cell & Tissue Engineering, Artificial Intelligence & Data Analytics, Robotics among others are offered to make the students future ready. Besides this, Sharda University also offers four year research oriented UG programmes.

Adopting the vision of NEP'20 of transforming India into an equitable & vibrant knowledge society by providing high quality education following changes are in progress & would be incorporated as laid down in para 11.9 of NEP'20:-

As mentioned in Para 11.9 of NEP'20 the undergraduate degree programme will be of 3 or 4 years duration, with multiple exit options within this period, with appropriate certifications, e.g., a certificate after completing 1 year, in a discipline or field including vocational and professional areas, or a diploma after 2 years of study, or a Bachelor's degree after a 3-year programme. The 4-year multidisciplinary Bachelor's programme, however, shall be the preferred option since it allows the opportunity to experience the full range of holistic and multidisciplinary education in addition to a focus on the chosen major and minors as per the choices of the student.

We would also consider the Inter University Migration by accepting credits stored at ABC (Academic Bank credit) as & when it would be established as laid down in NEP'20.

STUDENT ACCOMMODATION AT
SHARDA UNIVERSITY

Living in the campus hostels is an amazing experience at Sharda University. It's like a 'home away from home'. There are separate hostel facilities for boys & girls. It has been proved that students who live on campus score higher marks in their academics than those who do not due to focused study environment in hostels . Students also feel more connected to the University Family.

Caring wardens and tight security ensures a pleasant and safe stay allowing students to focus on studies. The hostel stay provides the students an insight into cross-cultural and cross-religious traditions, followed within and outside the country. Community living develops self-respect for the other communities, and discipline amongst the hostellers and prepare them for the future grills of life.

STUDENT CARE MANAGEMENT

Student Care Management is to facilitate students to raise any issue/complaint during their stay in campus. The students may voice their grievances regarding personal or academic matters, health services, hostels, library, accounts and other services. The Student Care Management redresses the grievances by sorting them out promptly and judiciously. It exists to promote and maintain a conducive and unprejudiced educational environment. It focuses on avoiding infringement of student's rights. It is good to air away a grievance rather than to keep it bottled up. Protection of human rights is essential for all round development of an individual's personality. To realize the primary needs of the students, this cell has been constituted. It is indented to find solutions for problems like physical or mental harassment, complaints regarding class room teaching, class room management, completion of syllabus, teaching methods etc.

The student needs to login to his PSFT account & follow some simple steps to raise his/her concern. They may also track the progress of their issue & provide feedback for resolution provided on a scale of excellent to very poor.

Raise your grievances (both Academic & Non- Academic) in Student Care Management.

YOGA/ MEDITATION

Yoga is a 5,000 year-old physical, mental and spiritual practice having its origin in India, which aims to transform both body and mind. On December 11 in 2014, the United Nations General Assembly declared June 21st as the International Day of Yoga. The declaration came after the call for the adoption of June 21st as International Day of Yoga by Mr. Narendra Modi, Prime Minister of India during his address to UN General Assembly on September 27, 2014 wherein he stated: "Yoga is an invaluable gift of India's ancient tradition. It embodies unity of mind and body; thought and action; restraint and fulfillment; harmony between man and nature; a holistic approach to health and well-being. It is not about exercise but to discover the sense of oneness with yourself, the world and the nature."

Sharda University has been celebrating the International Day of Yoga with great enthusiasm. The participants comprised of students as well as faculty & all staff members. The participants were introduced to Yogasanas, Pranayam, Dhyan, Sankalp and Meditation, as per the common protocol issued by Ministry of Ayush, Govt. of India by Anandacharya (Guruji) from Bhramhakumari.

Infact, Sharda University offers B.Sc. (Yoga) programme for those who wish to imbibe the amazing qualities of Yoga in their life and explore the global job opportunities it offers.

HUMAN VALUES AND PROFESSIONAL ETHICS

VISION OF THE UNIVERSITY

To serve the society by being a global University of higher learning in pursuit of academic excellence, innovation and nurturing entrepreneurship.

MISSION OF THE UNIVERSITY

1. Transformative educational experience
2. Enrichment by educational initiatives that encourage global outlook
3. Develop research, support disruptive innovations and accelerate entrepreneurship
4. Seeking beyond boundaries

CORE VALUES

- Integrity
- Leadership
- Diversity
- Community

To establish a balanced civil society Human Values and Professional ethics are inevitable. The present policy framework reiterates the need and process to create high-quality practices and environment backed with human values and professional ethics at Sharda University, Greater Noida to guide the stakeholders to achieve excellence and reputation. Abiding by the guidelines of values and professional ethics the university will achieve the highest personal, professional and ethical standards.

HUMAN VALUES

"A value is defined as a principle that promotes well-being or prevents harm".

Human values are closely related to human life and it is unrealistic to think the human life without values. Human values are those universal concepts, drivers of action which are found in all cultures, all societies, all times and in all places where human being seek out their lives. Human value refers to the virtuous merits such as honesty, integrity, truthfulness, compassion, helpfulness, love, respectfulness, hard-work; etc. It is concerned with principles and best practices of values of a human. Values or moral are the ideals or principles that individual follows to discriminate the correct from the incorrect. These principles or qualities are considered as well-intentioned in building up the personality of an individual.

SIGNIFICANCE OF HUMAN VALUES

- Make available the understanding of the attitudes, motivation and behaviours.
- Impact the consciousness of the world around.
- Signifies clarification of "factual and erroneous".
- Offers a technique to realize humans and organisation.

TYPES OF VALUES

We at Sharda University always give great emphasis to our one of the core values i.e. Integrity by maintain the highest personal, professional and ethical standards. We always believe in acting with honesty, courage and trust through transparency and fairness by collective and individual act. In terms of Leadership we believe in cultivating a culture of genuine sincerity, trust and collaboration at all levels through fostering value-based leadership among faculty members, students and staff in all their actions. University also serves the society while respecting rights of everybody via Community connect approach.

PROFESSIONAL ETHICS

Conventional a set of standards adopted by professionals is known as professional ethics. It is nothing but a code of conduct pertinent to diverse occupations and is established by the proficient associates of such profession or professional organizations. Every profession has its professional ethics: engineering, basic sciences, management, pharmacy, medical and allied health sciences, law, etc. Ethics is the set of ethical standards that applies to the all of profession mentioned above.

To help to mentor the students, faculty member and staff in performing their job functions perfectly according to comprehensive and reliable ethical principles, codes of professional ethics in Sharda University has been implemented. Some of the important components of professional ethics like integrity, honesty, transparency, respectfulness towards the job, confidentiality, objectivity etc. are already in the core values of Sharda University.

OBJECTIVES

The objectives of this policy framework to inculcate human values and professional ethics in Sharda University are the following:

(1) To reinstate the rich cultural legacy and human values of which we are the custodians.
(2) To focus on professional ethics which are broader indicators of desirable actions vis-à-vis undesirable actions.
(3) To lay down broader guidelines of values and ethics for internal and external stakeholders.
(4) To suggest operational guidelines for value-based and ethical practices in the university leading to implementation and monitoring.
(5) To indicate the outcomes of creating a value-based and ethical culture
(6) To suggest indicative reinforcement programmes for nurturing human values and ethics at Sharda University.

To achieve the above objective, Sharda University expect to all of the stake holders of the University to ensure about the *five prime human values* and its associated features.

RIGHT CONDUCT	PEACE	TRUTH	LOVE	NON-VIOLENCE
Health awareness	**Concentration**	**Truthfulness**	**Friendship**	**Cooperation**
Responsibility	Positivity	Honesty	Forgiveness	Respect
Helpfulness	Self-Acceptance	Determination	Kindness	Loyalty
Independence	Self-Discipline	Fairness	Sympathy	Active citizenship
Courage	Thankfulness	Trust	Tolerance	Justice
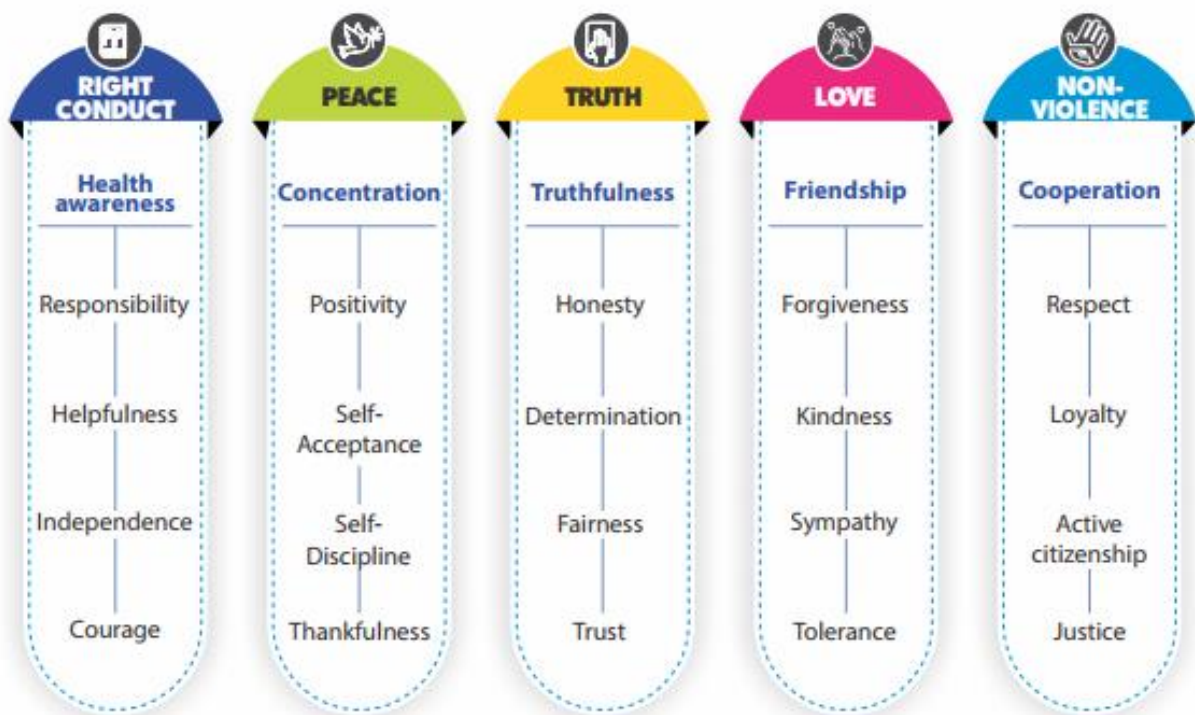

OUTCOMES

The first and foremost outcome of this endeavour is to inculcate values and ethics. Each of the physical infrastructure, psychological infrastructure, knowledge infrastructure and financial infrastructure needs to be glowing with values and ethical practices. It is crucial to have the big things at place but it is also important to have the smallest things at the place. To create such an environment, following five systems need to be created:

(1) The learning process for holistic development

(2) Impeccable governance

(3) Effective institutional management

(4) Well laid system of rewards and chastisement

(5) Institutional climate where 'rights' enjoy and 'wrongs' are discouraged.

VALUES AND ETHICS FOR STAKEHOLDERS

The success of Sharda University's mission and vision is driven by value-based ethical behaviour of its committed faculty members, officers, staff and students. Thus, the university is committed to imbibe core value and ethical behaviour into the daily interactions of stakeholder groups. These stakeholders of the university is faculty, students, administrators or others, should be guided by the following core values:

(1) **Integrity–** adhering to a conduct of duties in righteous manner and in accordance with the principles of honesty, trust, transparency and fairness.

(2) **Trusteeship–** Operating in an efficient, ethical and true manner while ensuring group participation and a system of check and balances within the institution.

Proportion of women receiving degrees

The girl child is now being promoted by the family to go to school. And hence there is increased number of girls in university education as well. Women are performing successfully in academics. Always there are higher amount of girls scoring high in Sr. Secondary school results in India. Also at University level there is good number of women students receiving degrees in various programme. With education and skills with them, the women are now almost in all streams of the education. The number and proportion of women receiving the degrees is also high since they qualify the exams of their programme in stipulated time and there is no drop out in this University.

Women's progress measures

The University has many policies related to employees and students for effective and efficient functioning. The policy towards non-discrimination against women is one of the major policy in the University supporting the women employees to work confidently in the Campus. The recruitment of the employee is based on his/her expertise and qualifications required for a particular job profile and there is no effect caste, ethnicity, religion, or the sex of the applicant on his/her selection. The terms and conditions of the work remain as per the HR manual and women employees are as same as the men employees except to receive the maternity leave for them. The men and women are equal stakeholders in the research, scholarship and in academic facilities of the University. The promotion process is highly automatized and quantified which is completely performance based and has no role of the gender, caste or group, etc. The University also organizes gender sensitization events among students to make them aware on gender equality.

(ii) While issues of malpractices in the conduct of examination or in the process of evaluation may be referred to the Ombudsperson, no appeal or application for revaluation or re-totalling of answer sheets from an examination, shall be entertained by the Ombudsperson unless specific irregularity materially affecting the outcome of specific instance of discrimination is indicated.

(iii) The Ombudsperson may avail assistance of any person, as amicus curiae, for hearing complaints of alleged discrimination.

(iv) The Ombudsperson shall make all efforts to resolve the grievances within a period of 30 days of receiving the appeal from the aggrieved student(s).

8. PROCEDURE FOR REDRESSAL OF GRIEVANCES BY OMBUDSPERSON AND STUDENT

GRIEVANCE REDRESSAL COMMITTEE:

(i) The University shall, within a period of one month from the date of issue of this notification, have an online portal where any aggrieved student may submit an application seeking redressal of grievance.

(ii) On receipt of an online complaint, the University shall, depending on the nature of complaint refer the complaint to the appropriate Administrative Officer in the Schools of Studies (for academics) or the Head of the Service Departments (other than academics) for appropriate necessary action, as indicated in the preceding para-5 of the Notification, through the Grievance Redressal Committee(s).

(iii) The Student Grievance Redressal Committee, as the case may be, shall fix a date for hearing the complaint which shall be communicated to the concerned officials in the University and the aggrieved student.

(iv) An aggrieved student may appear either in person or authorize a representative to present the case.

(v) Grievances not resolved by the University Student Grievance Redressal Committee or on appeal to the Vice Chancellor, shall be referred by the student to Ombudsperson, within the stipulated period.

(vi) University shall extend co-operation to the Ombudsperson or the Student Grievance Redressal Committee(s), as the case may be, in early redressal of grievances; any failure to do so may be reported by the Ombudsperson to the Commission, who shall take action in accordance with the provisions of these regulations.

(vii) The Ombudsperson shall, after giving reasonable opportunities of being heard to both parties, on the conclusion of proceedings, pass such order, with reasons thereof , as may be deemed fit to redress the grievance and provide such relief to the aggrieved student, as may be appropriate.

(viii) The University, as well as the aggrieved student, shall be provided with copies of the order under the signature of the Ombudsperson, and the University shall place it for general information on its website.

(ix) The University shall comply with the recommendations of the Ombudsperson; and the Ombudsperson shall report to the Commission any failure on the part of the University to comply with the recommendations.

(x) The Ombudsperson may recommend appropriate action against the complainant, where a complaint is found to be false or frivolous.

9. **INFORMATION REGARDING OMBUDSPERSON AND STUDENT GRIEVANCE REDRESSAL COMMITTEES:**

The University shall furnish, prominently, on its website and in its prospectus, all relevant information in respect of the Student Grievance Redressal Committee(s) under its purview, and the Ombudsperson for the purpose of appeal.

10. **CONSEQUENCES OF NON-COMPLIANCE:**

The Commission shall in respect of any institution, which willfully contravenes the University Grants Commission (Redress of Grievance of Students) Regulation, 2019, or repeatedly fails to comply with the recommendation of the Ombudsperson or the Grievance Redressal Committee(s), as the case may be, proceed to take one or more action(s) as specified under the UGC Regulations in this regard.

Policy for non-discrimination against women

Like other policies the University has also Non-discrimination policy for its employees in which there is special emphasis on concerns for women working in the campus. The University follows the equal opportunity principle for its employees. The allocation of facilities and infrastructure design is maintained keeping every employee in the mind.

Maternity and paternity policies:

The Human Resource department of the Sharda University cares for the employees in multiple ways, like their mental health, physical health, various kinds of leaves, digitization of documents, biometric attendance records, employees' database management, etc. Among the leaves there are causal leaves, earned leave, on duly leave, academic leave and also the maternity leave for women employees. The mothers are specially supported by paid leaves and gift items for new born. The father is also asked to contribute to the better management of household responsibilities to support the women till she joins the University.

Childcare facilities for staff, faculty and students:

The University is running a professionally managed Day-care Center for the kids of students, staff and faculty on the campus. This facility can be enjoyed during the working hours of the University. There are competent facilities and trained staff to care for children. The children are engaged in educational and recreational activities and are provided with a balanced fresh diet so as to support their good mental and physical health in future.
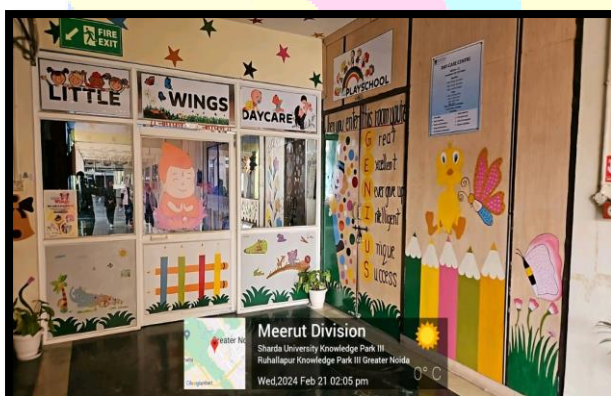

Women Mentoring schemes:

The University executes regular efforts on mentoring of students through its faculties. Students are allocated among teachers for mentorship. There is a separate dedicated University web-portal in the name of Paramarsh' wherein there is counselling type and contents records. Students' parents are also kept in loop while working for a student. This online record of mentoring related efforts facilitates the easy navigation in the information by the University authorities to plan and execute any required strategies to support the students' achievement.

MENTORING POLICY

Teacher, Role Model, Friend
"On Being a Mentor to Students"

1. Mentoring Definition:

Mentoring, as defined by Eric Parsloel, is to support and encourage people to manage their own learning in order that they maximize their potential, develop their skills, improve their performance and become the person they want to be.

2. Importance of Mentoring in Sharda University:

Student mentoring in Sharda University is important for the following reasons:

    a. Diverse student community with varying linguistic, socio-cultural, economic and academic backgrounds,

    b. International students belonging to different countries face challenges in coping with the Indian Culture as well the academic environment both inside and outside the classroom,

    c. Students embarking on their academic career at the university come with many expectations and apprehensions about learning in a new environment,

Thus, it is essential that students get guidance, hand-holding and support to facilitate their adjustment into the academic environment, Campus life and culture. The guidance is required for enhancements in academic performance and move beyond studies, Overall, mentor role is manifold; focused for academic growth and well-being of students in a new paradigm.

The type of student's mentoring depends upon scholastic level of the program:

    a. Undergraduate students: The focus will be on academic foundation, career development and tackling personal problems. These students are also made aware of the university policies and encouraged to participate in co-curricular and extracurricular activities.

    b. Postgraduate students: Focuses is on consolidating of given subject and generate interest in research. Mentor guidance and groom towards right career path,

foundation in a role is to provide 1"The Manager as Coach and Mentor" by Eric Parsloe r).
