

1 NO POVERTY

Sustainable Development Goal 1 advocates the concept of “NO POVERTY”, which aims to eradicate poverty in all its forms, everywhere. The ultimate aim is to ensure that by 2030, all men and women, particularly those living in vulnerable conditions, have equal rights to economic resources, as well as access to basic services, ownership, and control over land and other forms of property, inheritance, natural resources, appropriate new technology, and financial services including microfinance. The role of Higher Education Institutions in contributing towards efficiently reducing poverty is impeccable. At Sharda University, we continuously strive to contribute towards the “No Poverty” motto through our teaching-learning approaches and practices.

I. Inclusive Curriculum

We at Sharda University are keenly inclined towards inculcating among the students the culture and knowledge required to view the prevailing social and economic situations with an eye of detail and to define solutions to the long prevailing issue of poverty. A number of courses focusing on poverty, economics and social sciences are included in the curriculum under various departments.

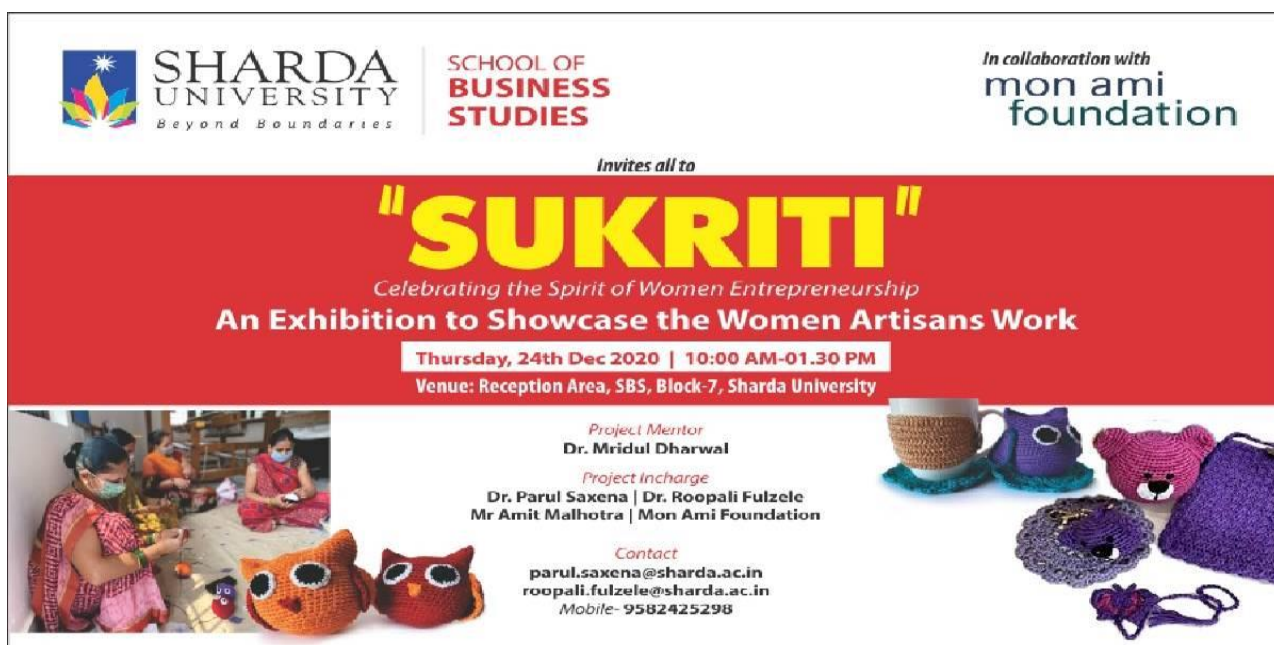

II. Research Initiatives:

A number of research papers pointing towards poverty and its allied issues have been published by various faculty members and students under different departments. Some of them are as follows:

- **SUSTAINABLE DIETS: BRINGING BIODIVERSITY TO THE PLATE**_Mayuri Rastogi, Assistant Professor, Sharda School of Allied Health Sciences, Sharda University: The paper has explored the concept of sustainable diets, which presents an opportunity to successfully advance commitments to sustainable development and the elimination of poverty, food and nutrition insecurity, and poor health.

- **Yunus Social Business Centre:**

Sharda University has set up a Centre of Excellence – **Sharda University Yunus Social Business Centre** as a Centre of Excellence that seeks to promote the concept of Social Business. This may be achieved by undertaking academic programmes, such as social business courses and degrees, undertaking action-research and research activities, organizing local/global social business design labs, seminars, workshops and competitions for students, business communities, policy makers, NGOs, and philanthropic organizations.

The Sharda University Yunus Social Business Centre can also arrange for participation in professional conferences, exchange visits and tours of social business, promoting documentation and publication of gathered experiences, using social media to make the experiences available globally. Networking with other YSBCs and social business entrepreneurs can also be available as part of the initiative.

- **Health Chaupals**

Sharda University has signed an MoU with **Raj Kumari Foundation**, for the purpose of conducting health awareness campaigns through “**Health Chaupals**” across 8 intervention villages. Raj Kumari Foundation is an ISO 9001:2015 certified non-profit organization, having a mission to contribute to

the Sustainable Development of society by playing the role of catalyst in the process of generation and dissemination of knowledge. The initiative involves visiting the nearby village to create awareness of health and hygiene and conduct health camps where individuals will be delivered health awareness sessions screened for the basic diseases wherever necessary and referred for further treatment in case of requirement of any surgery / additional treatment.
